101Z is an all-in-one games hub that bundles rummy, slots and teen patti under a single login and wallet, aimed at players who do not want a separate app per game. Its breadth is the selling point rather than any one game mode. A signup bonus is usable across every game in the hub.

Rummy, slots and teen patti

Three game categories share one wallet so you can switch without re-depositing.

One bonus, all games

The signup credit can be spent on any game room inside the hub.

Single-wallet cashout

Winnings from any game collect in one balance for a single UPI withdrawal.
