Arjun Mehta

OVERVIEW

Read articles by Arjun Mehta, RummyGameList's app research pen name, covering rummy apps, game formats, comparisons and platform information.

Making rummy app information easier to compare and understand.

About Arjun Mehta

Arjun Mehta is an editorial pen name used by the RummyGameList content team for app research and comparison coverage. This profile represents the Senior App Research Editor role responsible for organising rummy application information into practical guides for readers in India.

Articles under this byline focus on app categories, available game modes, Android requirements, platform differences and other information readers can compare before visiting an external source. The role also maintains app lists and comparison pages and checks whether important product details are still current.

The editorial method does not treat promotional claims as established facts. Articles separate information confirmed through a current developer or official-store source from descriptions found on third-party pages. Details that cannot be independently confirmed are identified as unverified or omitted.

How this byline is assigned

Arjun's byline is used when the primary task is product research. The article must separate independently verified product information from developer descriptions and third-party promotional claims.

Published pages follow the RummyGameList editorial policy , show a revision date and provide a correction route. A byline identifies editorial responsibility; it is not evidence that every listed App was installed or used.

Best Rummy Apps 2026: Top Indian Rummy Apps Compared

Compare researched Rummy apps in India by developer identity, game format, official source, current availability and clearly labelled money features.

Free-to-Play vs Real-Money Rummy Apps: What Changes?

Compare free-to-play and real-money Rummy apps by deposits, rewards, regional access, age checks and financial risk before choosing a product.

Points Rummy vs Pool Rummy vs Deals Rummy: Format Comparison
