How does 9IPL Game greet new players?

New registrations receive a Rs.20 join offer, credited at account creation. The listing names UPI and wallet as payment methods, and no cards appear on the sheet.

The 51 MB package takes a touch longer to download than a lightweight table game, so here is a short checklist:

- Fetch the APK only from the official 9ipl.org link.
- Clear storage space for the 51 MB install.
- Confirm the ₹50 withdrawal floor before you deposit.
- Make sure you meet the 18+ age limit.

With a Rs.20 join offer and a ₹50 cash-out gate, 9IPL Game keeps both ends of the money flow low, and the Dec 2025 stamp shows the v3.8.0 build is being maintained. The 4.5-star rating across 170K+ installs points to steady usage, and the UPI and wallet rails cover the standard deposit routes. For a teen patti player

wanting a low entry point, the numbers line up neatly.

Yes. The 9IPL Game entry records UPI and wallet as its payment methods, and the card names no others. The listing page mentions no cards, banking channels, or any third instrument, so per the card the only supported methods are UPI and wallet. Confirm at the operator's destination before assuming more.

The 9IPL Game listing records ₹50 as its withdrawal floor. That figure appears in the cash-out context of the card and is distinct from the Rs.20 join offer shown in the welcome context. Reading the two amounts together: newcomers see Rs.20 on joining, and the smallest recorded payout is ₹50.

The 9IPL Game listing records a 51 MB APK at version v3.8.0, refreshed in Dec 2025. The entry also shows a 4.5 rating and 170K+ installs, an 18+ age limit, and a direct APK link for Android install. These figures come from the listing card as published.

Yes. Rs.20 is the join offer on the 9IPL Game listing, sitting in the bonus and welcome context of the page. It is the amount recorded for new players joining through the entry. It is not the withdrawal side of the card; the floor there is ₹50, so the two figures should not be mixed up.
