Download Cash Rummy APK for Android

A new rummy-first app from November 2026, with two welcome bonuses, daily cash drops and 60+ games.

18+ only. Real-money games carry financial risk. Read the legal notice at the end of this page.

Cash Rummy is one of the newest names on our list. Its official page ran a launch countdown that ended on the morning of 5 November 2026, and it now greets visitors with "Join in Cash Rummy!", a promise of "365 Days of Non-Stop Cash Drops" and an offer box that reads "Two Welcome Bonus".

Rummy is the first game on that page, with more than 60 titles behind a single wallet. A fresh account picks up a signup bonus of around ₹179, a second reward comes with the first recharge, and cash outs start at ₹100. This guide walks through the Cash Rummy APK from download to first withdrawal, plus the checks worth making before you trust a brand-new app with money.

How to Recognise the Real Cash Rummy

"Cash rummy" is also everyday shorthand for any rummy game played for money, so searching for it brings up a mix of unrelated apps and download sites. The app on this page is easy to pin down once you know three things:

- The icon: a green square with CASH in large gold letters, above RUMMY spelled out on silver tiles.
- The address: the official page opens at cashrummy7.com (cashrummy1.com shows the same page) with the heading "Join in Cash Rummy!".
- The offer box: it says "Two Welcome Bonus", and the share card promises 100 coins for joining with a referral code.

If a page offering a "Cash Rummy APK" shows a different icon, heading or offer, it is not this app, and a file from it should not go on your phone.

Games in the Cash Rummy Lobby

The official page advertises "60+ Games" and shows eight of them on its front tiles. They split cleanly into games where your decisions matter and games where only the cards or dice do:

The page description adds slots and Aviator to the list. Both are pure chance as well. If your aim is to make a bonus last, rummy and poker are the tables where choices count; the quick rounds only change how fast a balance moves. Our guide to hacks and winning tricks explains why no pattern or "predictor" beats them.

The Cash Rummy Bonus Stack

Cash Rummy's page stacks several offers on top of each other:

- Two welcome bonuses. About ₹179 lands after registration, and the second reward is tied to your first recharge. The amount credited can vary from player to player, so open the offer screen in the app before you pay.
- Daily mystery bonus. The page description promises one every day, on top of the "Non-Stop Cash Drops" headline.
- Cashback. One of the four feature tiles on the page; the app's own terms set how much comes back and when.
- Referral coins. Join with a friend's code and the share card promises 100 coins. The code only works during signup.

Every one of these arrives as bonus money. You have to play through a set amount before any of it can be withdrawn, and what remains after that is often far smaller than the headline figure. Our bonus guide shows how to work out what an offer is really worth.

Downloading and Installing the Cash Rummy APK

Cash Rummy is not listed on Google Play or the App Store. It installs from an APK file offered on its official page, and the whole process takes about two minutes:

- Tap Download Cash Rummy APK above to open the official page in Chrome, then let it finish loading. Its download button receives the file link a moment after the page appears, so a very quick tap can do nothing.
- Tap the download button on that page and wait until the file has saved completely.
- Open the file. If Android stops you, allow your browser to install unknown apps under Settings, then Apps, then Special app access (menu names differ between phones).
- Check that the installer shows the name Cash Rummy and the green and gold icon, then tap Install.
- Open the app and register with your mobile number and the OTP sent to it.

The official page offers only an Android file, so there is no iPhone version to look for. If the install fails with "App not installed" or a parse error, our APK install error fixes cover each message, and our Yono APK download guide explains the settings in more detail.

Creating Your Cash Rummy Account

Signing up needs nothing more than a mobile number and the one-time password sent to it. Type a referral code at this stage if a friend gave you one, because the field does not come back later. Use one account per phone and per bank account, and give the name that appears on your UPI or bank details: withdrawals are paid only to an account in the same name as your profile. If the OTP is slow or the app keeps signing you out, our login problems guide has the fixes.

Rummy Habits That Stretch a Bonus

The welcome money lasts longest at the rummy tables, provided the basics are sound:

- Know what a drop costs. In points rummy, leaving before your first pick costs 20 points, a later drop 40, while losing a full hand can cost 80. Folding a hopeless hand early is cheap.
- Save jokers for the right job. Build the pure sequence from natural cards and spend printed and wild jokers on impure sequences and sets.
- Shed heavy cards that do not connect. Aces and picture cards count 10 points each if someone else declares first.
- Check every group before you declare. You need at least two sequences, one of them pure, and an invalid declaration costs the full 80 points.

New to the game? Our rummy rules guide explains sequences, sets and scoring with examples. Start at the lowest-stake tables until the app's layout feels familiar.

Deposits and Withdrawals

Adding money happens through the recharge section in the app, usually by UPI. Cash outs start at ₹100 in our details table, and the withdrawal screen in the app always shows the current minimum. Before your first request, finish any open bonus play-through, check that the payout account carries your profile name, and ask for a small amount. Note the order ID: if a withdrawal stays pending for more than a day, send that ID and a screenshot to support. Our withdrawal guide explains what each status means.

Cash Rummy Customer Support and Official Channels

The official page promises "24*7 Customer Support" and links seven places to reach the app or follow it:

- Live chat: the chat icon on the official page opens a support conversation.
- Telegram: the link is a Telegram folder, so Telegram offers several Cash Rummy chats at once and lets you pick which to join.
- WhatsApp: an official channel for announcements. Channels only broadcast, so you cannot send it a message.
- Facebook, Instagram, YouTube and TikTok: news, offers and videos.

None of these is a phone number or an email address. A "Cash Rummy helpline number" posted in a comment or a search result is not official, and callers who ask for your OTP or UPI PIN are scammers. Our customer care guide explains how those scams work.

Cash Rummy Problems and Fixes

If the app stops opening altogether, our guide to an app that is not opening or has shut down covers what happens to your balance.

Is Cash Rummy Safe and Real?

Cash Rummy is a real app with an official page, a working download and active channels, but it is new, and new means no track record. Its page calls the app "Secure&Legal" and claims more than six crore users. An app whose launch countdown ended on 5 November 2026 cannot have that many players of its own yet, so read both lines as marketing. Cash Rummy holds no Indian licence and publishes no independent audit of its games.

Install only from the official "Join in Cash Rummy!" page, never share an OTP or UPI PIN, and complete a ₹100 withdrawal before you deposit more. Our real or fake checklist lists the warning signs to watch for in the weeks after launch.

- Rummy leads a lobby of 60+ games behind one wallet
- Two welcome bonuses, cashback and a daily mystery bonus
- Seven official links, including live chat, Telegram and WhatsApp
- No track record yet: the app went live on 5 November 2026
- Android only, installed from an APK outside the Play Store
- Online money games are outlawed in India under the 2025 Act

Our Verdict on Cash Rummy

Cash Rummy suits players who want rummy first, with the familiar quick games around it, and who value having live chat and several official channels to turn to. Being new is its biggest unknown. Treat the first weeks as a trial, keep deposits small and cash out early. To see it beside the other rummy-led apps we cover, open our rummy apps list , and for the latest arrivals, our new Yono games page.

Cash Rummy FAQs (Frequently Asked Questions & Answers)

Cash Rummy gives two welcome bonuses. About ₹179 arrives after registration and the second comes with your first recharge, though the amount can vary from player to player. Both are bonus money with a play-through target, not cash you can withdraw straight away.

Its official page counted down to a launch on the morning of 5 November 2026, which makes it one of the newest apps on our list.

Use the live chat linked on the official page, or follow the official Telegram and WhatsApp channels. Cash Rummy lists no phone number or email, so any "helpline number" found online is fake.

It is a real app with its own official page and support channels, but it is new and holds no Indian licence. Test it with a small deposit and a ₹100 withdrawal before you add more.

Not for real money. The Promotion and Regulation of Online Gaming Act, 2025 counts cash rummy as an online money game, a category banned in India since the Act and its rules took effect on 1 May 2026.

- Important Legal Notice

India's Promotion and Regulation of Online Gaming Act, 2025 bans offering, advertising and processing payments for all online money games. Its rules came into force on 1 May 2026, and some states restricted these games even earlier. Check the law that applies to you before you download or deposit. Read our legal guide .

What Players Say About Cash Rummy

See why players choose Cash Rummy through real experiences from our growing community.

I start with the game list. Cash Rummy highlights 7 Up Down and lists 60+ games in the lobby, so I would check the exact table and rules before choosing a game.

On Cash Rummy, the page lists ₹179 signup bonus. I would read the eligibility, play-through and withdrawal conditions before treating the bonus as usable balance.

For cash-out planning, Cash Rummy lists a ₹100 minimum withdrawal and support through Live chat, Telegram, WhatsApp, YouTube, Facebook, Instagram. I would confirm KYC and processing details before adding funds.
