Chicken Road — A new arcade experience with high RTP (Real-Time Per Second) collision gameplay.Control the chick to safely cross the road; the multiplier increases with each step.

- Version 5.8 · 51MB

What is Chicken Road Game

Chicken Road is the sequel to the classic collision game released in 2025 by developer inOut Games. It upgrades the humorous concept of “chicken crossing the road” into a high-volatility, high-reward collision slot machine. In the game, you guide the protagonist chicken across a busy highway, with each step multiplying the payout, up to a maximum of 3,203,384.8 times. You can choose to “cash out” at any time to lock in your winnings, or risk continuing—if you get hit by a car, your bet is lost.

The gameplay of Chicken Road is very simple and the controls are completely intuitive, making it easy for even novice players to pick up. You need to guide the chicken across the road, avoiding being run over by vehicles. At the start of each round, you can choose a game mode, place your bets, and then work your way to victory. Here are the basic rules:

- Control your excitement level – change the difficulty level or try the demo version at any time.
- Set your bet amount – bets range from ₹100 to ₹100000, depending on your deposit.
- Start a game – click the “Start Game” button to begin.
- Take action and increase your stake – use the “Start” button to take action.
- Withdraw – The dynamic withdrawal feature allows you to withdraw your winnings after each step; simply click “Withdraw”.
- Start a new round – repeat the above steps to start the game again.

Chicken Road App Features

- Collision Slot Machine Mechanism : Each press of “Forward” moves the chick forward one step, increasing the multiplier; players can withdraw their winnings at any time, with self-controlled risk.
- Multiple Difficulty Levels : Four modes: Easy, Normal, Hard, and Hardcore. Easy mode boasts a 98% RTP, suitable for conservative players; Hardcore mode offers extremely high volatility with potentially huge returns per round.
- Super High Multipliers : The maximum multiplier can reach 3,203,384.80x, allowing even small bets to unlock amazing prizes.

- Provably Fair Algorithm : Employing SHA hash encoding and a random seed, every round's result is verifiable, preventing cheating.
- Free Demo Mode : No registration or deposit required; experience the full game directly with virtual currency and learn the rules with zero risk.
- Fast Withdrawals : Unlike traditional slot machines that require waiting for the round to end, players can click "Withdraw" after any move to lock in their current winnings, with funds arriving instantly.

How to download and install Chicken Road APK

- Click the download button : Click the " Download Chicken Road APK " button at the top of the page to get the latest official version.
- Allow installation from unknown sources : When installing a third-party application for the first time, please go to your phone's "Settings" → "Security" and enable "Allow installation from this source" (some systems will prompt you automatically during installation).
- Open the installation package : After downloading, locate the APK file in the notification bar or file manager and click to start installation.
- Complete installation and register : After successful installation, open the application. You can choose "Demo Mode" to try it for free, or register an account and deposit funds to participate in real-money games.

How to get started with Chicken Road

- Open the Chicken Road app and tap "Log in" or "Sign Up".
- Enter your mobile number and tap "Send OTP" to receive a verification code.
- Enter the verification code to complete the login. Alternatively, you can register using your email address through the official online casino.
- Upon your first login, be sure to complete KYC verification (submit your Aadhaar card and link your UPI ID) for smooth withdrawals later.

Chicken Road Withdrawal Rules

In Chicken Road, the withdrawal mechanism is directly linked to game progress. Players can click the "Cash Out" button at any point in the chicken's journey, and the system will calculate the winnings based on the current accumulated multiplier and bet amount. The minimum withdrawal amount is set by the connected online casino, usually ₹500 or equivalent currency, but many platforms offer UPI instant withdrawal service. The remaining winnings balance is in your real money account and can be freely withdrawn; however, free coins earned through demo mode or events cannot be withdrawn directly, but winnings using free coins can be withdrawn normally.

Withdrawal requests are generally processed by the selected online casino, with funds arriving within 1 hour to no more than 24 hours. If a withdrawal fails, please first check if your KYC is complete and if the linked UPI or bank account is valid. All official partner platforms use SSL encryption to ensure fund security.

Download Chicken Road Game now

Join 1000,000 Indian players and earn cash rewards every day!

Yes, you can download the app for free and play the demo mode an unlimited number of times. To win real money, you need to deposit and bet through the official partner online casino, with deposit amounts starting from as low as 100 rupees.

Yes. The game uses a provably fair algorithm, and the results of each round are random and verifiable. Players receive bonuses based on their bet amount and the final multiplier. However, high volatility means that consecutive losses are possible, so please play responsibly.

There is no fixed strategy for the game, but beginners are advised to start with the “Easy” mode (RTP 98%) to familiarize themselves with the multiplier growth rate; practice repeatedly using the demo mode and set stop-loss and take-profit targets. Never attempt to use third-party bots or modified APKs, as this will result in account bans.

When depositing through the official online casino, you can use UPI, Paytm, PhonePe, Google Pay, cryptocurrencies, and credit/debit cards. Withdrawals are typically completed via UPI or bank transfer.

Demo mode can be played offline, but real-money games and withdrawals require an internet connection. A stable 4G or Wi-Fi connection is recommended.

The game itself is a collision of skill and chance, and is not explicitly prohibited in India. However, players must verify that the online casino they choose holds an internationally valid license and complies with local laws. Limited to users aged 18 and over.
