Diwa 91 is one of many Diwa-named club lobbies. Our page tracks the alldiwa.com snapshot: advertised up to â‚¹75 , listed file 42 MB , withdrawal floor â‚¹50 , Android 5.0+, publisher label “DIWA GAMES”. Coverage inside our three reference directories is still only that one source, so nothing here is cross-checked against a second peer page we trust.

Public directories also quote ~47-48 MB and a â‚¹30-class welcome / â‚¹100 floor. Our tracked alldiwa snapshot still shows 42 MB, up to â‚¹75, â‚¹50 floor. We keep our snapshot figures and flag the spread rather than invent a merge.

Unlike Diwa King or Diwa 777 pages that quote mid-â‚¹400 ceilings, Diwa 91 sits near the bottom of our Diwa-name bonus ladder. That is useful for comparison – a low headline is easier to screenshot and verify – but it does not mean the offer is safer. Low ceilings still carry wagering, expiry and KYC gates that only the live offer screen can show.

Package strings matter more than the “91” in the title. Several independent directories list com.diwa91.app . After any install, open Settings â†’ Apps â†’ App info and compare that string; a different package with the same icon is a different product.

Advertised welcome: up to â‚¹75. Listed floor: â‚¹50 via UPI, bank transfer or wallet payouts (per the directory). Sign-up is described as phone OTP; PAN and bank proof are the usual first-withdrawal asks. Screenshot the credit and the wagering line the moment they appear – directory text is not a contract.

Tracked size 42 MB; version on our snapshot is a rolling “Latest” label. Other directories quote 1.8.x-2.0.0 – treat those as conflicting labels, not a confirmed build. Enable Install unknown apps only for the one browser or file manager you use, install, then revoke that permission and delete the APK file.

Readers comparing thin, single-source Diwa lobbies before depositing. Skip if you need a second directory to agree on size and bonus, or if you cannot match a package name after install.

What the Diwa 91 numbers can tell you

The advertised ceiling on Diwa 91 is â‚¹75 and the listed withdrawal floor is â‚¹50, about 67% of that ceiling. A payout is not described as possible until the balance reaches the floor, and the ceiling is still only an advertisement.

The listed file is 42 MB - in line with the Yono Clubs median (42 MB).

The version line says Latest, with no build number. Two files can both be called Diwa 91 and still not be the same build.

One of the three directories we compare has a page for this name. A second page quoting the same size and the same â‚¹75 is the cross-check this listing does not have.

Offer screens sometimes hide the wagering multiple. Copy that number from Diwa 91 before you treat â‚¹75 as cash. How wagering works .

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.

What we noticed in the listing

- Format: chance-based or club-style lobby (quick rounds, so a budget helps)
- Listed on 1 of 3 reference directories we compare
- No fixed build number published, so a file cannot be matched to a release

Worth knowing

- Per-day or per-week withdrawal caps can sit far below the balance shown in Diwa 91.
- The headline up to â‚¹75 is not the amount Diwa 91 credits; screenshot the credit screen at once.

Details that would help

- A second independent directory listing the same package name and size
- A fixed version number tied to a release date
