Download Diwa Fun APK for Android

New Diwa family app whose official page has a free Fortune Garuda 1000 demo, plus Aviator and VIP weekly and monthly bonuses.

18+ only. Real-money games carry financial risk. Read the legal notice at the end of this page.

Diwa Fun lets you play a slot on its official page before you install a single file. Fortune Garuda 1000, whose artwork shows a golden winged Garuda, loads in the middle of that page and runs in the browser with no account. Six more game tiles flank it, a banner claims "1000+ GAMES", and the page's own countdown set the launch for 12:00 IST on 1 November 2026, so its track record starts from that date.

That demo is the hook, and this guide treats it as one. Below: what a free spin proves (very little), how to install the Diwa Fun APK , what each VIP and deposit offer asks of you, cash outs from ₹100 and where to get help. On the app's own logo, the two words are run together: DiwaFun.

Try Before You Install: The Fortune Garuda 1000 Demo

The centre of the official page is a working slot, labelled "Playable Fortune Garuda 1000 demo", free to spin on any device.

Land a large result and a popup covers the screen: "BIG WIN! YOUR MOMENT! Your luck is on Fire! Download DiwaFun now and keep the big wins coming!", with an install button underneath. It is a sales tool, placed exactly where a winning moment meets a download button.

The demo is good for one thing: seeing how the game looks, how fast a round settles and whether the theme appeals. Its limits matter more:

- Demo coins are not rupees, and with no account involved there is nothing to collect.
- The page never claims the demo uses the same odds as the real-money game inside the app.
- A big demo win forecasts nothing about your next paid spin.

Before any real stake, fix a limit you could lose without missing the money; our responsible gaming tips help you hold that line. A "Fortune Garuda pattern" sold on Telegram is worthless, and our guide to Yono hacks shows why no predictor can call the next result.

Six Game Tiles and a 1000+ Games Claim

Three tall tiles stand on each side of the demo. On Android and on a computer, a tap only brings up "Click to download and experience the game!"; on an iPhone, the tiles open the web version of the app.

- Super Ace , a slot whose tile shows a jester's crown on gold bars.
- Power of the Kraken , a slot fronted by a horned, tentacled sea creature.
- Lucky Neko , a slot built around the beckoning lucky cat.
- 500 Lucky Gems , a gem slot with a golden mask above stone temple steps.
- Diwa 500 Fortune Gems , a gem slot carrying the Diwa name.
- Aviator , the crash game: a plane climbs with a rising multiplier, and you collect before it vanishes, otherwise the bet is lost.

Then there is the count. One icon under the logo says "1000+ GAMES", the Hindi share text says "hundreds" of games, and the page itself shows seven. Both numbers are marketing; the real lobby only shows after installing. More slot-focused apps sit in our Yono slots games list .

How to Spot the Genuine DiwaFun Page

Four checks before you download anything:

- Header: a golden lotus above gold "DiwaFun" lettering, with a saffron, white and green ribbon and ".COM" underneath.
- App icon: the same lettering and ribbon on a black rounded square, minus the lotus.
- Demo: Fortune Garuda 1000 in the middle, below the banner "PLAY TOP GAMES & WIN REAL REWARDS".
- Address: diwafun.vip, or diwafun.cyou, an identical copy that our Download button uses.

Leave any site showing a different logo, a version number of its own or a charge for the file. Diwa Fun's relatives are in our Diwa games list .

Diwa Fun Download: Which Device Gets What

The official page links to no Google Play or App Store listing, and it reacts differently to each device:

Installing on Android:

- Use the Download Diwa Fun APK button above this guide; it opens the official page through an invite link.
- Once the page loads, tap the green INSTALL NOW button ("Play Anytime, Anywhere") pinned to the bottom of the screen. The popup's install button works too; the side tiles do not.
- Let the APK save completely. As it starts, the page places the invite ID on your clipboard for the app to pick up, so copy nothing else until Diwa Fun is open.
- Open the downloaded file. If Android blocks it, go to Settings and give your browser the "Install unknown apps" permission.
- Tap Install, launch the app at once and register.

iPhone users see "Play now in your browser" on the button, which loads the browser version with no file involved.

From a laptop or desktop, the button still saves the Android file, which Windows and macOS cannot run, so switch to your Android phone. Permission screens are explained step by step in our Yono APK download guide .

Fixing a Stalled or Failed Install

Most early trouble with a new APK comes from the browser, storage or the invite handover:

Other Android error messages are decoded in our APK install fixes , and an app that installs but later refuses to start is covered in our app not opening guide .

Signing Up and Sharing Your Invite Link

The official page does not show the signup screen, so expect the usual pattern for apps of this kind: a mobile number, confirmed by a one-time code sent by SMS. Use the name printed on your bank account or UPI profile, since payouts normally go to an account held in that same name. If the SMS code never comes, try our login problems guide .

For invites, a friend has to reach the official page through your invite link and install from there, because that is when the page passes your invite ID across. Sending someone the APK file directly bypasses that handover, and the invite can go uncredited.

What the Diwa Fun Bonus Offers Ask of You

The offers come from a "DAILY BONUS" icon under the logo and an image titled "VIP PROMOTION" that appears when the page link is pasted into a chat. None has published terms, so ask what each one needs from you.

Nothing up front: signup credit and daily bonus. Our details table puts the signup credit at around ₹217; the figure is approximate and differs between players. The daily bonus is just an icon, with no amount or rules attached.

A recharge: first deposit up to 200%. If the full 200% applied, ₹300 paid in would bring ₹600 of bonus balance. "Up to" suggests the full rate needs certain amounts and may stop at a ceiling, so read the recharge screen first.

Heavy play: weekly ₹5,000, monthly ₹10,000. These sit under the VIP heading, and in most apps of this type VIP rank rises with the amount you recharge or bet. With no level table published, treat both figures as ceilings; a new account would normally begin at the bottom.

Other people's play: ₹288 daily for a single invite. Read literally, one friend would earn you ₹8,640 over a 30-day month. That would be a strange payment for one signup, so it almost certainly hangs on unstated conditions: whether the friend must recharge, how much they must play and for how long.

Every one of them arrives as bonus balance, locked behind a play-through (wagering) requirement: a set amount has to be bet before the balance can be cashed out. Ask live chat for the requirement, the expiry and the eligible games before paying in, and screenshot the answers. Our bonus explainer estimates how much

of an offer usually survives.

Money In, Money Out

Deposits are made from inside the app; the first is the one tied to the 200% offer. Withdrawals start at ₹100. That floor can move, so the withdrawal screen is where to confirm the live figure. The "FAST WITHDRAWAL" icon names no time. Before your first payout request:

- clear the play-through on every bonus you have touched;
- add a UPI or bank payout account whose holder name matches your profile;
- keep the first request small, near the ₹100 floor;
- note the order or transaction ID if the app shows one, so live chat can trace any payout still marked pending after a day.

What each payout status means is explained in our withdrawal guide .

Reaching Diwa Fun Customer Care: Chat, Not Calls

Diwa Fun offers no call centre and no email address. Tapping a small toggle on the official page reveals six icons instead:

- Live chat at cs.diwafunchat.com, for account, bonus and payment questions.
- Telegram: the DiwaFunOfficial channel.
- WhatsApp: a one-way channel for announcements.
- Facebook (DiwaFun), Instagram (diwafun) and YouTube (@diwafun), the public social accounts.

Numbers posted as a "Diwa Fun helpline" in comments or search results are not official, and real support agents have no reason to want your OTP or UPI PIN. How those fake helplines operate is laid out in our customer care guide .

Diwa Fun Real or Fake: What the Evidence Shows

Diwa Fun is not a phantom: its page loads on two addresses, offers an APK and a browser version, runs a demo and links six channels. Having launched on 1 November 2026, it has no track record yet, and a large part of the page sells rather than proves:

- "SAFE & SECURE" and "FAST WITHDRAWAL": icons with no audit or payout time behind them.
- The big-win popup: triggered by a free demo and built to turn a lucky spin into a download.

None of this proves fraud, but trust has to come from your own test: download from the official page only, never pass on a one-time code or UPI PIN, and hold off on further deposits until a ₹100 cash out has landed. Our guide to spotting fake apps lists warning signs for an app's first months.

Since 1 May 2026, the Promotion and Regulation of Online Gaming Act, 2025 has made it an offence to offer or promote online money games in India, and slots or crash games played for money fall within it. Banks may block payments to these apps, and a player who loses money has no licence holder, regulator or compensation fund to turn to. More in our Yono legality explainer .

- A free Fortune Garuda 1000 demo lets you judge the game before installing
- Slots and Aviator lead the games shown on the official page
- Android APK plus a no-install browser version for iPhone
- Live chat backed by Telegram, WhatsApp and three social accounts
- The demo's big-win popup is a sales pitch, not a guide to real-money odds
- Bonus figures come without any published conditions
- Only live since 1 November 2026, so payouts are unproven
- Money games have been illegal in India since 1 May 2026

Should You Try Diwa Fun?

Diwa Fun makes a clear first impression for one reason: you can play its headline slot before deciding anything. Take that for what it is, a look at the game, and ignore the popup's talk of big wins. The rewards behind the download are vaguer, from VIP bonuses that seem to depend on heavy play to an invite payment with missing conditions. Anyone installing the Diwa Fun app should get the bonus conditions from live chat in writing (screenshots count), make the opening recharge as small as the app allows and test a ₹100 payout before anything else. Other recent launches are on our new Yono games page, and every app we cover is on all Yono games .

What You Need to Play Diwa Fun

Check your phone before you download the Diwa Fun APK. These are general recommendations for Yono apps, not official figures from Diwa Fun.

Diwa Fun FAQs (Frequently Asked Questions & Answers)

No. The signup credit is around ₹217, and the exact amount can differ between players. It comes as bonus balance that you can cash out only after meeting its play-through (wagering) requirement, so ask live chat for that target first.

No. The demo is free and needs no account, so there is nothing to collect; its "BIG WIN!" popup simply leads to the download. The page never claims the demo shares the odds of real-money play.

No. Help comes through live chat at cs.diwafunchat.com, plus the Telegram and WhatsApp channels listed on the official page. A "Diwa Fun helpline" number found anywhere else online is a scam.

Real, in the sense that its official page works, offers an APK and an iPhone browser version and links six channels. It has only run since 1 November 2026, though, with no payout record and unverified badges, so test a ₹100 cash out before you pay in again.

Not when money is involved. Slots and crash games played for cash count as online money games, which the Promotion and Regulation of Online Gaming Act, 2025 bans. Its rules started applying on 1 May 2026.

- Important Legal Notice

India's Promotion and Regulation of Online Gaming Act, 2025 bans offering, advertising and processing payments for all online money games. Its rules came into force on 1 May 2026, and some states restricted these games even earlier. Check the law that applies to you before you download or deposit. Read our legal guide .

What Players Say About Diwa Fun

See why players choose Diwa Fun through real experiences from our growing community.

I start with the game list. Diwa Fun highlights Super Ace and lists the listed games in the lobby, so I would check the exact table and rules before choosing a game.

On Diwa Fun, the page lists ₹217 signup bonus. I would read the eligibility, play-through and withdrawal conditions before treating the bonus as usable balance.

For cash-out planning, Diwa Fun lists a ₹100 minimum withdrawal and support through Live chat, Telegram, WhatsApp, YouTube, Facebook, Instagram. I would confirm KYC and processing details before adding funds.
