Review this rummy app's key details, including offers, payout terms, payment options, and download information, before visiting the operator's official website.

Leaving this site opens a third-party route—reconfirm licensing, domains, and eligibility before you proceed.

Board, not slots

Ludo Zee is ludo with optional cash entry. The gold-purple Z and centre die are honest advertising. Modes: 2-player quick, 4-player classic, and private code rooms. Tokens, safe squares, and extra rolls on sixes follow a published rule pane — read it, because some rooms disable extra sixes.

₹80 credit

₹80 is entry credit for rooms at or below a listed stake. It will not open high-entry boards. Credit leftover cannot be cashed; win the board, then the prize row becomes cash subject to the ₹100 floor.

Dice presentation

Dice bounce is animated. A fairness toggle shows a seed after the match. That is better than colour apps with nothing. It still is not a third-party live audit. If a token teleport looks wrong, screenshot before the next roll.

Disconnect rules

If you drop, a 60-second reconnect timer starts; after that the token auto-moves. Auto-moves can strand you. Do not take cash boards on a flaky network.

Payments

UPI and wallet. ₹100 floor is reachable after a single mid-stake win, which is why this product attracts casual players — and why you should still KYC early. Prize split on 4-player boards is winner-take-all unless the room says otherwise.

Social

Friends list and board chat. Trash talk is common. Mute exists. Child accounts are not allowed; 18+ is the gate, and ludo-with-cash is still gambling in this listing's terms.

Close

Play Ludo Zee for board pacing, not for 777 jackpots. Confirm each room’s sixes rule, keep credit on low boards, and treat disconnect auto-move as a real risk.
