Ever wonder what the Ek Rummy card actually records? It shows a 4.5-star rating, 200K+ installs, and a Rs.20 join credit for new players, filed under More Rummy Rooms. The refresh stamp reads Apr 2026, so the v2.7.19 build is a recent one.

The Rs.20 credit is Ek Rummy's welcome gesture. It is a small amount by design—the kind of bonus that costs the house little while giving a new player a few hands to try the tables. It sits behind the usual 18+ gate, and the site's terms spell out how the credit is released into play. When it is time to cash out, the minimum withdrawal is ₹100, and the app moves payments through PhonePe and UPI—those two, and nothing else, are named on the profile. The practical case is easy to state: the Rs.20 credit covers a few warm-up hands, the ₹100 withdrawal floor keeps cash-outs within reach of small wins, and the PhonePe-and-UPI pairing matches how many players already move money. For someone inside the UPI ecosystem, that removes an extra step from both deposit and withdrawal.

On the technical side, the installer comes from the developer's own APK link at 51 MB, a mid-size file that installs cleanly on most handsets. The v2.7.19 build with its Apr 2026 refresh stamp suggests active maintenance, and 200K+ installs point to a room with a working player base. For someone wanting a simple rummy app with a modern build date, the Ek Rummy card is easy to read: 4.5 stars, PhonePe and UPI payments, and a ₹100 floor on withdrawals. Add the 18+ age gate and the Apr 2026 maintenance stamp, and the profile answers most practical questions before the download even starts.

The Ek Rummy listing publishes Rs.20 as its join offer. The figure sits in the bonus row of the card and reads as the welcome offer for new accounts. It is a different row from the ₹100 withdrawal floor, the payout figure on the same card.

Per the Ek Rummy card, the minimum withdrawal is ₹100. That is the cash-out threshold the listing records: a balance would need to stand at ₹100 before a payout, as far as the page states. No other withdrawal terms are printed.

Yes. The Ek Rummy card names PhonePe and UPI as its payment methods, and those are the only two in the payment row. The directory lists no other way to move money on this entry, so anything further would need checking at the operator's destination.

The Ek Rummy entry lists version v2.7.19 at 51 MB, with Apr 2026 as the refresh date on the card. The download is a direct Android APK, meaning the install route is sideloading, and the page marks the age limit as 18+.

Per the directory, Ek Rummy was last refreshed in Apr 2026. That date sits on the card next to version v2.7.19 and the 51 MB size. The listing gives no change log or detail about what the update contained.
