- Diwa Lucky: mid ceiling, rolling build
- Identity risk
- Checks before deposit
- Vs King and Spin

Stored facts: rolling version, 42 MB , welcome up to â‚¹250 , floor â‚¹100 . The Lucky token is common marketing language – it is not a fairness certificate and it is not proof of shared ownership with Diwa King or Diwa 91.

A â‚¹250 ceiling is less hype-driven than â‚¹700+ Diwa banners, which makes offer-screen screenshots easier to compare without chasing every mirror that inflates the number.

Package unknown; single-directory coverage inside our trio. Other mirrors sometimes paste higher Lucky welcomes. We keep â‚¹250 from our snapshot and refuse to chase unverified ceilings.

Screenshot the credit and the wagering line. Match UPI or bank holder name to registration. Refuse contact-list referral grabs.

Diwa King carries a concrete size (46.3 MB) and version strings. Diwa Spin is the ceiling-below-floor warning. Lucky is the mid-bonus rolling build. Cluster: what a Diwa game is . Re-check: 28 Oct 2026. 18+ only.

What the Diwa Lucky numbers can tell you

The advertised ceiling on Diwa Lucky is â‚¹250. The listed withdrawal floor is â‚¹100, about 40% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listed file is 42 MB, 2.5 MB larger than the Slots & Arcade median of 39.5 MB.

The version line says Latest, with no build number. Two files can both be called Diwa Lucky and still not be the same build.

One of the three directories we compare has a page for this name. A second page quoting the same size and the same â‚¹250 is the cross-check this listing does not have.

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.
