GoldsBet advertises up to â‚¹300 and lists 68 MB for the download. Coverage check: allyonobonus.net (1 of 3).

GoldsBet is listed as a slots and arcade app, where outcomes are chance-based and a session budget is the main control you have. Inside the Goldsbet-named group (2 listings) its ceiling ranks 1, so the name alone does not tell apps apart. With allyonobonus.net as the only listing, treat every GoldsBet figure as unconfirmed.

The headline for GoldsBet is up to â‚¹300 (below the Slots & Arcade median of â‚¹450; rank 17 of 24). That ceiling is a promotional figure for GoldsBet, not a promise of what is credited.

The minimum withdrawal on the listing is â‚¹100 (UPI, bank transfer and wallet payouts).

A typical first session with GoldsBet goes: install, sign up with a mobile number, receive the offer (up to â‚¹300), then play or deposit. On KYC, the GoldsBet listing says: Quick registration, with ID/bank verification normally asked when you first cash out. Before putting money into GoldsBet, screenshot the offer terms and the rules for cashing out. The payout routes named are UPI, bank transfer and wallet payouts; use a UPI ID or bank account held in your own name, since a name mismatch is a common reason a first withdrawal stalls.

Expect a download of about 68 MB (heavier than the 42 MB median for Slots & Arcade listings). Minimum system: Android 5.0+. Listed version: 6.6.12 . What the listing says about updates to GoldsBet: Sep 24, 2026 (date label on allyonobonus.net).

Before downloading GoldsBet, ask who the page belongs to. Directory pages such as allyonobonus.net describe GoldsBet; they are not the publisher. Our download-source guide walks through the checks to run on GoldsBet before you open it.

Remove the installer file once GoldsBet is on the phone, and turn the unknown-source setting back off.

Closest matches in our directory, including same-name siblings: Spin 777 (a headline â‚¹150 higher, 32.5 MB smaller); Slots Winner (a headline â‚¹50 lower, 38.6 MB smaller); Yes Spin (a headline â‚¹150 higher, 44.9 MB smaller). Names close to GoldsBet suggest similar templates more often than similar payout behaviour; we do not assume either way.

Possibly suits readers who treat slots as paid entertainment with a hard session budget. Skip GoldsBet if you cannot afford to lose the deposit, feel pushed to keep playing, or cannot find out who publishes it.

Everything above about GoldsBet comes from directory pages checked on 2026-10-15. Confirm figures in the app.

What the listing supports

- Registration is described as a short phone-number flow.

Limits of this listing

- No independent check of fairness or payout speed that we could find.
- Distributed outside the Play Store, so updates are not automatic.
- No company or registered address is named on the listings we read.
- Only one directory lists it, so nothing is cross-checked.

What the GoldsBet numbers can tell you

The advertised ceiling on GoldsBet is â‚¹300. The listed withdrawal floor is â‚¹100, about 33% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listed file is 68 MB, 28.5 MB larger than the Slots & Arcade median of 39.5 MB.

The listing names version 6.6.12. If the file you receive shows a different version on first launch, treat that as a different build of GoldsBet.

One of the three directories we compare has a page for this name. A second page quoting the same size and the same â‚¹300 is the cross-check this listing does not have.

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.

Before you fund GoldsBet

- Download only from a host you can name. Listed size for GoldsBet is 68 MB â€” a large gap is a stop sign.
- Confirm version 6.6.12 (or note the update) and the package name in App info. Listings say: quick registration, with ID/bank verification normally asked when you first cash out
- Screenshot the offer (Up to â‚¹300) and the Withdraw floor (â‚¹100) before any deposit. Match UPI or bank holder name to registration. Cap spins or minutes before raising stake.

GoldsBet advertises up to â‚¹300 with a listed size of 68 MB and version 6.6.12. It appears on 1 of 3 reference directories, so treat the figures as claims; our check level is Extra (5 of 9).

â‚¹100 is the figure on the listing (UPI, bank transfer and wallet payouts). The listings do not say if the floor changes by method or for bonus balance.

A listing cannot prove safety. What is documented for GoldsBet: sideloaded APK, 1 of 3 directories, 68 MB. Check who hosts the file and what permissions it asks for.

The update label reads: Sep 24, 2026 (date label on allyonobonus.net). That is the directory's label, not a changelog.

GoldsBet lists 68 MB, version 6.6.12, and Android 5.0+. A mismatch between your download and the 68 MB listed for GoldsBet is a reason to be wary.
