- Diwa Spin: light APK, awkward math
- Build identity
- Permissions and host
- Vs Diwa 777 and Goa Spin

Tracked row: rolling version label, 35 MB , advertised up to â‚¹77 , withdrawal floor â‚¹100 , publisher label DIWA GAMES on alldiwa-style pages. Paytm and PhonePe are named with UPI/bank.

On paper the welcome ceiling sits below the listed floor. If both figures are live, a welcome credit alone cannot open Withdraw – you would need deposited cash (plus KYC) first. That is the unique value of this note versus high-banner Diwa pages.

No fixed version number is published. Two 35 MB files can share the Diwa Spin name and still differ. Package not install-confirmed. After install, keep package + size + first-launch version.

Light APKs can still request heavy permissions. Refuse SMS and accessibility access on unknown sideload hosts. Prefer a host you can name.

Diwa 777 pushes a â‚¹450-class ceiling at 45 MB. Goa Spin has a fixed 1.0.2 label and a â‚¹500 ceiling. Diwa Spin is the low-ceiling / floor-warning case inside the Diwa token cluster. See also Diwa table . Re-check: 28 Oct 2026. 18+ only.

What the listing supports

- Ceiling-below-floor math is explained clearly - rare honesty vs hype pages.
- Light 35 MB file.
- Paytm/PhonePe named.
- Distinct from high-ceiling Diwa 777 rows.

Limits of this listing

- Rolling version only.

- Package unknown.
- Single-directory narrative.
- Floor/ceiling conflict may mean stale copy on one side.

What the Diwa Spin numbers can tell you

Diwa Spin lists a withdrawal floor of â‚¹100 and an advertised ceiling of â‚¹77. The floor is higher than the headline, so the two numbers cannot both describe the same balance.

The listed file is 35 MB, 4.5 MB smaller than the Slots & Arcade median of 39.5 MB.

The version line says Latest, with no build number. Two files can both be called Diwa Spin and still not be the same build.

One of the three directories we compare has a page for this name. A second page quoting the same size and the same â‚¹77 is the cross-check this listing does not have.

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.

What we noticed in the listing

- Format: chance-based or club-style lobby (quick rounds, so a budget helps)
- Listed on 1 of 3 reference directories we compare
- No fixed build number published, so a file cannot be matched to a release

Worth knowing

- Do not treat Diwa Spin as Diwa 777 by token alone.
- Depositing just to unlock the floor can become the real spend.

Details that would help

- A second independent directory listing the same package name and size
- A fixed version number tied to a release date

Before you fund Diwa Spin

- Download only from a host you can name. Listed size for Diwa Spin is 35 MB â€” a large gap is a stop sign.
- No fixed build is published for Diwa Spin; after install, compare package name and size in App info. Listings say: phone sign-up first; PAN/bank checks at withdrawal time
- Screenshot the offer (Up to â,¹77) and the Withdraw floor (â,¹100) before any deposit. Match UPI or bank holder name to registration. Cap spins or minutes before raising stake.

If the welcome credits fully and the floor stays â,¹100, you still need deposited cash (plus KYC) before a payout screen makes sense.

No - rolling Latest label only.
