- Diwa Top: name vs package reality
- How to use both stories
- Bonus caution
- Vs Diwa Ace and Diwa 91

Top in the title is branding, not a ranking on this desk. Our alldiwa-style snapshot still stores a rolling Latest label, 33 MB , welcome up to â‚¹777 , floor â‚¹100 , publisher label ALL DIWA GAME.

Independent catalogues (yonogame.app, yonosgames and similar) publish package com.diwatop.app with version strings in the 2.5.x-2.6.x band and sizes around 52-53 MB . Some promo posts also mention com.diwatopwhl.app . That spread is the point of this page: one brand token, more than one build story.

Keep our snapshot figures visible. After install, compare App info to com.diwatop.app (or whichever string your host claimed) and to the size you actually downloaded. A 33 MB file and a 53 MB file under the same icon are different products until strings match.

â‚¹777 is a marketing ceiling. Screenshot what credits, including wagering. Plan around the â‚¹100 floor.

Diwa Ace on our snapshot is also a 33 MB / high-ceiling club row (â‚¹676-class) without a stable package on our trio. Diwa 91 is the low-ceiling row where several directories already repeat com.diwa91.app . Diwa Top is the high-ceiling case with an emerging public package claim that still disagrees with our stored size. Re-check: 28 Oct 2026. 18+ only.

What the listing supports

- Public package string com.diwatop.app appears on independent directories.
- High â‚¹777 ceiling documented as advertising.
- Peer size band (52-53 MB) gives a concrete mismatch check vs our 33 MB snapshot.
- Clear warning that Top is not a ranking.

Limits of this listing

- Snapshot size and peer sizes disagree.
- Second package string (com.diwatopwhl.app) appears in some promos.
- Rolling label on our snapshot.
- No watched payout.

What the Diwa Top numbers can tell you

The advertised ceiling on Diwa Top is â‚¹777. The listed withdrawal floor is â‚¹100, about 13% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listed file is 33 MB, 9 MB smaller than the Yono Clubs median of 42 MB.

The version line says Latest, with no build number. Two files can both be called Diwa Top and still not be the same build.

One of the three directories we compare has a page for this name. A second page quoting the same size and the same â‚¹777 is the cross-check this listing does not have.

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.

What we noticed in the listing

- Format: chance-based or club-style lobby (quick rounds, so a budget helps)
- Listed on 1 of 3 reference directories we compare
- No fixed build number published, so a file cannot be matched to a release

Worth knowing

- Assuming â‚¹777 credits in full.
- Installing whichever Diwa Top file is trending on Telegram without package match.

Details that would help

- A second independent directory listing the same package name and size

- A fixed version number tied to a release date

Before you fund Diwa Top

- Download only from a host you can name. Listed size for Diwa Top is 33 MB (snapshot); peers often 52-53 MB â€" a large gap is a stop sign.
- No fixed build is published for Diwa Top; after install, compare package name and size in App info. Listings say: phone-number sign-up; PAN and bank proof are usually requested before the first withdrawal
- Screenshot the offer (Up to â‚¹777) and the Withdraw floor (â‚¹100) before any deposit. Match UPI or bank holder name to registration. Note which lobby tiles share a wallet or promotion.

Public dirs often list com.diwatop.app. Some promos show com.diwatopwhl.app. Match App info to the string your host claimed.

Because our alldiwa-style snapshot still stores 33 MB. We flag both instead of inventing one merged number.

No. Top is product branding.
