IND Bingo – A new bingo game option in India · Daily free bonuses · Real player community

- Version 8.4 · 76MB

What is IND Bingo APK

IND Bingo is a rapidly rising online bingo gaming platform in India in recent years, developed and operated by a gaming team focused on the Indian market. The app is based on traditional 75-ball and 90-ball bingo gameplay, incorporating festival themes familiar to Indian players, localized language support, and community interaction features.

Unlike many international bingo platforms, IND Bingo's game design fully considers the preferences of Indian players: faster payouts, a wider variety of card selections (supporting 2-6 cards simultaneously), and a built-in "friends room" function, allowing players to invite friends and family to play together.

IND Bingo is fully desi game! Daily free bonus milta hai, withdrawal bhi 100 rupees se start. Friends ke saath private room bana ke khel sakte ho, same like playing together in local chai tapri. No kalesh, pure fun and paisa.

IND Bingo App Features

- Create private rooms with friends : Create your own private room and invite your friends to join, without having to match with strangers. Perfect for casual gaming in family groups, social circles, or among colleagues.
- Free Bingo Coupons Daily : Log in every day to receive free Bingo coupons and participate in cash games without having to recharge. Continuous check-ins also earn extra rewards.
- Fast-paced draw mode : Compared to traditional bingo, IND Bingo's draw time is reduced by approximately 40%, meeting the needs of Indian players for fast-paced gameplay.
- UPI Priority Payment : Deeply integrated with the Unified Payments Interface (UPI) of India, UPI is the preferred payment method for both deposits and withdrawals, with an average arrival time of approximately 5-15 minutes.
- Player Reputation System : The platform has a player reputation score mechanism. Users with high completion rates and no complaints can enjoy lower withdrawal fees and exclusive customer service channels.

How to download and install IND Bingo APK

- Click the download button : Click the “Download IND Bingo APK” button at the top of the page. The system will automatically begin downloading the installation package.
- Allow installation from unknown sources : When installing a third-party application for the first time, you need to enable “Allow installation from this source” in your phone’s “Settings” → “Security” (some phones will automatically prompt you to enable this during installation).
- Open the installation package : After the download is complete, find the APK file in the notification bar or file manager and click “Install”.
- Complete installation and registe r: After installation, open the application and register using your mobile phone number to receive a free ₹100 Bingo voucher.

How to get started with IND Bingo

- Open the IND Bingo app and tap the “Login/Register” button on the homepage.
- Enter your mobile number and tap “Send OTP” to receive a one-time verification code.
- Enter the received verification code into the app to complete the login—no password is required.
- After logging in, it is recommended to complete KYC verification in “My Account” as soon as possible (upload your Aadhaar card or PAN card). This will help increase your withdrawal limit and speed up the review process.

IND Bingo Withdrawal Rules

ND Bingo’s minimum withdrawal amount is ₹100, on par with most similar apps. The platform uses a “profit-first” withdrawal system: winnings from games can be withdrawn directly, while bonuses and free tickets can be withdrawn after reaching a specified betting multiplier (usually 1x). Identity verification is required before withdrawal to ensure account security.

Withdrawal requests are typically processed within 15 minutes to 2 hours, but may take up to 24 hours during peak weekend or holiday periods. If a withdrawal fails, funds will be returned to the original wallet account; users can verify their bank information and resubmit the request. It is recommended to check the status in your “Transaction History,” and contact customer service directly within the app if you have any questions.

Join 1000,000 Indian players and earn cash rewards every day!

IND Bingo has undergone extensive localization for Indian players: the interface supports 6 Indian languages, the game pace is faster, and it includes a built-in “friends’ private room” feature. Players can create private rooms and invite friends to play together without matching with strangers, a mode very popular among Indian families and friends.

New users receive ₹100 free bingo vouchers upon registration, which can be used directly to participate in cash bingo games. Winnings are withdrawable with no additional threshold. In addition, daily logins on the platform earn random bingo vouchers, and 7 consecutive days of logins earn an extra ₹50 cash voucher.

Participate in cash bingo games and receive rewards based on the number of numbers you hit each round. The platform also features “daily challenges” where completing designated tasks earns you prizes. In addition, you can earn a ₹50 reward by inviting friends to register and play the game, with no upper limit, after your friend completes their first recharge.

The platform prioritizes UPI payments (such as Google Pay, PhonePe, Paytm), and also supports bank transfers and credit cards. Recharges are instant, and withdrawals default to the original payment method.

Under normal circumstances, withdrawal processing time is 15 minutes to 2 hours, which may be slightly longer on weekends. Withdrawals under ₹200 are free of charge; amounts exceeding this are subject to a 2% service fee (maximum ₹50). Users who complete KYC verification can enjoy 3 free withdrawals per month.

IND Bingo is only for users aged 18 and above. All game results are automatically generated and recorded by the system and are traceable. The platform operates legally in parts of India, but users are advised to familiarize themselves with local laws regarding online bingo games. The platform uses SSL encrypted transmission, and user data and funds are held in separate escrow accounts, ensuring security.
