Version v2.7.1 · Payment methods UPI, Wallet · Age limit 18+ · Updated Jun 2026

Club before casino

Kavya Club looks like a leaf-and-wordmark, not a jackpot collage. The product is private tables: rummy-style deals and teen patti rooms tied to a club code. Public matchmaking exists but is secondary. If you hate waiting for friends to finish KYC, this will feel slow.

₹200 club bonus

The ₹200 credit unlocks after you join or create a club, not at raw signup. Creating a club required a verified mobile and a display name without numbers. Referral slices inside the club are optional and capped weekly.

Table tools

Hosts set buy-in, seat count, and whether chat is on. A “leave with chips” rule is published per table so you are not trapped until a pack ends. That rule is the best feature in this entire import set.

Cashout

₹400 floor is higher than colour apps because club chips can sit in unfinished tables. The cashier will not pay while you still occupy a seat. Stand up first, then withdraw via UPI or wallet.

Moderation

Club admins can kick. They cannot seize another player’s withdrawable cash in the official ledger. Off-app UPI between members is against the house text and is how people get burned — stay on ledger.

Tone

No crash sirens, no spinning 7s on the home tile. Support speaks in longer sentences. The 4.8 rating in this file is for product manners, not for “easy wins.”

Kavya Club is for people who already have a group. Solo grinding a public list is possible but misses the point. Complete KYC before you host, and never move stakes to personal UPI.

Common questions

No. The credit tied to joining or creating a club after mobile verification, not to a raw install.

Occupied tables lock chips. Stand up so the seat releases, then try UPI again.

Not in the official ledger. Admins can kick. Off-app payments are outside the product and unsafe.
