## Board, not slots

Ludo Zee is ludo with optional cash entry. The gold-purple Z and centre die are honest advertising. Modes: 2-player quick, 4-player classic, and private code rooms. Tokens, safe squares, and extra rolls on sixes follow a published rule pane — read it, because some rooms disable extra sixes.

## ₹80 credit

₹80 is entry credit for rooms at or below a listed stake. It will not open high-entry boards. Credit leftover cannot be cashed; win the board, then the prize row becomes cash subject to the ₹100 floor.

## Dice presentation

Dice bounce is animated. A fairness toggle shows a seed after the match. That is better than colour apps with nothing. It still is not a third-party live audit. If a token teleport looks wrong, screenshot before the next roll.

## Disconnect rules

If you drop, a 60-second reconnect timer starts; after that the token auto-moves. Auto-moves can strand you. Do not take cash boards on a flaky network.

## Payments

UPI and wallet. ₹100 floor is reachable after a single mid-stake win, which is why this product attracts casual players — and why you should still KYC early. Prize split on 4-player boards is winner-take-all unless the room says otherwise.

## Social

Friends list and board chat. Trash talk is common. Mute exists. Child accounts are not allowed; 18+ is the gate, and ludo-with-cash is still gambling in this listing's terms.

## Close

Play Ludo Zee for board pacing, not for 777 jackpots. Confirm each room's sixes rule, keep credit on low boards, and treat disconnect auto-move as a real risk.

- Independent score note

We do not sell score slots or host APK files — only timestamped audit snapshots.

## Common questions

No. It is entry credit. Only prize-row cash above ₹100 can leave via UPI.

A reconnect window, then auto-moves. Auto-moves can ruin a cash board. Use a stable connection.

Not always. Some rooms disable extra sixes. Open the rule pane before you pay the entry.
