On the directories we compare, Maha Games shows up as a Yono Clubs listing: up to â‚¹450, 29.1 MB, Android 5.0+. We found it on rummystores.com, alldiwa.com, allyonobonus.net, so 3 of the 3 reference directories carry a page for it.

The listings describe Maha Games as a club-style lobby of fast rounds. Short rounds make it easy to spend more than you planned on Maha Games. Among the 2 Maha-named listings, only the figures on each page tell them apart; this one ranks 1 on advertised bonus. Three directories (rummystores.com, alldiwa.com, allyonobonus.net) carrying Maha Games makes it easier to cross-check, though they may all repeat one source.

Up to â‚¹450 sits level with the Yono Clubs median of â‚¹450, ranking 14 of 27 in Yono Clubs. A mid-range headline like up to â‚¹450 for Maha Games can still hide a turnover multiple, so look for it on the offer screen.

Withdrawals start at â‚¹100 on the listing; payout routes mentioned: UPI, Paytm and bank transfer.

Before you register on Maha Games, decide your deposit limit in â‚¹ and write it down. Sign-up is described as phone-number based, with the welcome headline of up to â‚¹450 for Maha Games. Identity checks: Quick registration, with ID/bank verification normally asked when you first cash out. Keep a copy of the Maha Games terms screen so you can compare it later. The payout routes named are UPI, Paytm and bank transfer; use a UPI ID or bank account held in your own name, since a name mismatch is a common reason a first withdrawal stalls.

The listed package for Maha Games is 29.1 MB, lighter than the 42 MB median for Yono Clubs listings. It needs Android 5.0+. The listings show version 1.0.1. Update label for Maha Games: Sep 24, 2026 (date label on allyonobonus.net).

The safest route for Maha Games is the publisher's own site, not a forwarded file. A mirror of Maha Games that cannot say who runs it is a reason to stop. Our download-source guide walks through the checks to run on Maha Games before you open it.

After installing Maha Games, switch off "install unknown apps" for the browser you used and delete the APK.

Other Maha-named listings and close matches by category: Jaiho Win (the same headline, 4.9 MB larger, minimum Android 7.0+); Diwa VIP (the same headline, 4.9 MB larger, minimum Android 5.0+); Jaiho 777 (the same headline, 12.9 MB larger, minimum Android 5.0+). A shared name with Maha Games does not prove a shared owner, so judge each listing on its own figures.

Who Maha Games suits: people curious about quick-round lobbies who can walk away after a set amount. Anyone chasing losses, anyone under 18 and anyone who cannot verify the publisher should leave Maha Games alone.

Everything above about Maha Games comes from directory pages checked on 2026-10-15. Confirm figures in the app.

What the Maha Games numbers can tell you

The advertised ceiling on Maha Games is â,¹450. The listed withdrawal floor is â,¹100, about 22% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listing names version 1.0.1. If the file you receive shows a different version on first launch, treat that as a different build of Maha Games.

All three directories we compare have a page for Maha Games. Matching headlines are still advertisements - useful context, not a watched payout.

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.

No app can be called safe from a listing alone. For Maha Games the listings show a file outside the Play Store, 3 directory page(s) and a 29.1 MB package. Verify the publisher, package name and permissions first.

The update label reads: Sep 24, 2026 (date label on allyonobonus.net). That is the directory's label, not a changelog.
