MQM Bet – India’s premier cricket betting platform | High odds, fast settlement

- Version 12.0 · 82MB

What is MQM Bet APK

MQM Bet is a rapidly rising online sports betting platform in India in recent years, focusing on providing professional betting services for cricket enthusiasts. The platform covers IPL, international cricket matches, as well as popular sports such as football and kabaddi, and has earned a good reputation among users for its high odds and instant settlement.

Unlike many similar platforms, MQM Bet adopts a player-first operating strategy, without complex betting thresholds, and provides detailed match data to assist users in decision-making. According to user feedback, the platform’s cricket betting odds are typically 5%-10% higher than the market average, and the profit settlement speed is fast, making it a preferred platform for many experienced Indian bettors.

“Yaar, MQM Bet pe cricket betting ka alag hi maza hai. IPL match ho ya international series, odds hote hain solid aur jeetne ke baad withdrawal jaldi aati hai. Bina kisi tension ke game karo, paisa banao. Try karo, aapko bhi pasand aayega!”

App Features

- Comprehensive Cricket Coverage : From IPL and International Test Matches to the T20 League, all cricket competitions are covered, supporting pre-match betting and in-play betting, with real-time strategy adjustments.
- Higher-than-Market Odds : According to third-party comparisons, MQM Bet offers average odds 5%-10% higher than the industry standard for major cricket competitions, providing players with greater potential returns.
- Instant Settlement Mechanism : After the match results are announced, winnings are typically automatically credited within 15-30 minutes, requiring no manual review and ensuring high fund efficiency.
- Secure Payment Network : Supports UPI, Paytm, PhonePe, and major bank transfers. All transactions are conducted through encrypted channels, ensuring fund security.
- Data Analysis Tools : The app includes built-in data modules such as team status, player performance, and historical matchups to help users make more informed betting decisions.

- Localized Customer Service : A local Indian team provides 24/7 online support, quickly resolving issues via in-app chat, phone, and email.

MQM Bet’s core business is cricket betting, covering IPL, international cricket matches, and domestic leagues. In addition, the platform also offers betting options for popular sports such as football, kabaddi, and tennis, as well as a small number of esports events.

New users receive ₹200 in betting credits upon registration, with no deposit required. The bonus will be automatically credited to your account after successful registration and can be used directly for betting. Winnings from betting credits can be withdrawn normally. The platform also regularly offers “First Deposit Match” and “Refer a Friend” promotions; details can be found in the Telegram group.

Select the event you are interested in, view the live odds, enter your bet amount, and confirm. The platform supports pre-match betting (place bets before the match starts) and in-play betting (place bets during the match). You can switch modes on the event page. It is recommended to familiarize yourself with the process with small bets first.

MQM Bet’s odds for major cricket matches are generally 5%-10% higher than the market average. For example, in an IPL match, MQM Bet might offer odds of 2.10, while other platforms might only offer 2.00. This means higher potential winnings for the same bet amount.

KYC verification is required before withdrawal (submit your Aadhaar card, PAN card, and linked bank account). The minimum withdrawal amount is ₹200. Only funds won through actual betting can be withdrawn; bonus betting funds cannot be withdrawn directly, but funds won using bonus betting funds can be withdrawn normally.
