Ok Rummy — The new benchmark for skill-based rummy in India · Fair play · Instant payouts

- Version 5.8· 46MB

What is Ok Rummy

Ok Rummy is an online multiplayer competitive game based on the classic 13-card rummy rules. Developed and operated by a professional team, it is dedicated to providing Indian players with a fair, transparent and high-reward rummy experience. Unlike traditional rummy games, Ok Rummy retains the authentic gameplay whilst introducing an innovative scoring system and social interaction features, ensuring that every game is both strategic and entertaining.

App Features

- Purely skill-based competition : Game outcomes are determined entirely by players' memory, strategic ability and decision-making skills, in accordance with the Indian Supreme Court's definition of games of skill.
- Diverse game variants : Supports multiple game modes including Points Rummy, Pool Rummy and Deals Rummy, catering to the strategic preferences of players of all skill levels.
- Fair Play Mechanism : Cards are dealt using an internationally certified Random Number Generator (RNG), eliminating any form of cheating or manipulation; every hand can be traced and verified
- Secure Payment System : Partners with multiple Indian payment gateways, supporting UPI, Paytm, PhonePe, Google Pay and bank transfers; deposits are credited instantly, and withdrawals are processed within one hour
- Player protection mechanisms : Built-in self-exclusion features, daily spending limits and playtime reminders help players establish healthy gaming habits
- 24/7 customer suppor t: A local Indian support team is available round the clock to resolve issues quickly via in-app chat, telephone or email

How to download and install Ok Rummy APK

- Click the download button: Click the 'Download Ok Rummy APK' button at the top of the page, and the system will automatically start downloading the installation package (approx. 36 MB).

- Allow installation from unknown sources: If this is your first time installing a third-party app, please go to ‘Settings’ → ‘Security’ on your phone and enable ‘Allow installation from this source’ (some phones will prompt you automatically during installation). The Ok Rummy APK file has undergone multiple layers of security checks, so you can install it with confidence.
- Open the installation package : Once the download is complete, locate the APK file in your notification bar or file manager, then tap to begin installation.
- Complete installation and registration : Once installed, open the app and register using your mobile number to claim a ₹500 welcome bonus.

How to log in to Ok Rummy

- Open the Ok Rummy app and tap the ‘Log In’ or ‘Sign Up’ button.
- Enter your mobile number and tap ‘Send OTP’—this is the two-factor authentication mechanism used by Ok Rummy to ensure account security.
- Enter the verification code received via SMS into the app to complete the login process; there is no need to remember complex passwords.
- Once logged in, we strongly recommend that you complete KYC verification immediately (by submitting your Aadhaar card, PAN card and linking a bank account). This is a necessary step to ensure Ok Rummy strictly complies with Indian legal requirements, and is also an important measure to safeguard your funds.

Ok Rummy Withdrawal Rules

Ok Rummy employs a transparent and efficient withdrawal system, with all financial transactions processed through official banking channels. The minimum withdrawal amount is ₹100, a threshold designed to cater to the needs of all players, ensuring that both casual players and professional players can enjoy a convenient withdrawal service.

Withdrawal requests are processed within 30 minutes to 3 hours; in the event of bank system maintenance or public holidays, the maximum processing time will not exceed 24 hours. Should a withdrawal fail, the funds will be refunded to your wallet account via the original payment method within 24 hours. All withdrawal records can be tracked in real time via the ‘Transaction History’ feature within the app, ensuring full transparency and traceability of fund movements.

Join 100,000 Indian players and earn cash rewards every day!

Ok Rummy is an online multiplayer platform based on the rules of 13-card Rummy. Its core gameplay remains consistent with traditional Rummy: players must use their skills to form valid sequences (straight sequences and mixed sequences) and sets from their hand. The difference lies in the fact that Ok Rummy

introduces a real-time scoring system and national leaderboards, allowing players to compete against others from across the country in every game, thereby significantly enhancing the game's competitive and interactive nature.

New users receive a ₹500 welcome bonus simply by registering, with no deposit required. Once you have successfully registered, the bonus will be automatically credited to your gaming account. In addition, Ok Rummy offers daily login rewards, referral bonuses and regular tournament prizes. Follow the official Telegram group to be the first to receive the latest promotional updates.

To win real money on Ok Rummy, you need to effectively apply the following core strategies:

- Prioritise building pure sequences: Pure sequences (without using wild cards) form the foundation of victory; it is advisable to prioritise completing at least one pure sequence in the opening stages
- Observe opponents' discards: Pay close attention to the cards opponents pick from the discard pile, as this can reveal the hands they are building.
- Adapt your strategy flexibly: Do not stick rigidly to a single hand type; adjust your strategy flexibly based on the cards you draw.
- Manage high-value cards: Discard high-value cards (J, Q, K, A) that cannot form sequences at the appropriate time to minimise losses if an opponent beats you to a win.

Withdrawals are subject to the following conditions:

- Completion of KYC verification (submission of Aadhaar card and PAN card, and linking of a bank account)
- The minimum withdrawal amount is ₹100

Only funds won through gameplay may be withdrawn (bonus balances cannot be withdrawn directly, but funds won using bonuses may be withdrawn as normal)

Ok Rummy supports all major Indian payment methods, including UPI, Paytm, PhonePe, Google Pay and bank transfers. The platform guarantees zero transaction fees on deposits, and the full amount of every payment will be credited to your gaming account balance.

Ok Rummy holds a valid overseas gambling licence and strictly complies with local laws within India. We clearly inform users that online gambling may be restricted in certain Indian states (such as Telangana and Tamil Nadu); please ensure that participation is permitted in your region. Technically, the platform utilises SSL encryption for data transmission and RNG certification, and employs AI behavioural analysis to prevent cheating. All games are restricted to individuals aged 21 and over. Please gamble responsibly and avoid becoming addicted.
