Colour prediction lottery app with Wingo, K3, 5D and TRX games, joined through an invitation link.

18+ only. Real-money games carry financial risk. Read the legal notice at the end of this page.

Jai Club is different from most apps on our list. Instead of rummy or slots, it is a colour prediction lottery app: you bet on whether the next number will be green, red or violet, big or small, in rounds that repeat every minute or so. You join Jai Club through an invitation link that opens a registration page in your browser, which is why people search for "Jai Club login" and "Jai Club register" more than an APK.

Colour prediction games look simple and fast, and they spread mostly through referral links on Telegram and YouTube. In this guide we explain exactly how the main game, Wingo, works and works out how much of each ₹100 bet you can expect to get back under the typical rules. It also covers registration, withdrawals and the red flags to watch for.

What Is Jai Club?

Jai Club is a web-based lottery platform offering colour prediction games such as Wingo, plus K3 (dice), 5D (digit lottery) and TRX Win. Players register with a mobile number through an invitation link, recharge a wallet and bet on short rounds. It is not a card game app and has nothing in common with rummy beyond the wallet.

How Wingo Works

Every round draws a number from 0 to 9. Each number has a colour and a size:

You can bet on a colour, on big or small, or on an exact number. Under the typical rules a service fee of about 2% is taken from every bet, and payouts are roughly 2x for a colour or size, 4.5x for violet and 9x for an exact number. If every number is equally likely, that gives these expected returns:

Every bet returns less than you put in, round after round. With a new round every minute, those small losses add up fast. Check the rules screen inside Jai Club for the exact fees and payouts it uses.

How to Register on Jai Club

- Open the official Jai Club registration page in your browser through a Jai Club invitation link.
- Enter your mobile number and set a password.
- Complete the OTP or verification step if asked.

- Log in and look for any app download option inside the site if you prefer an app over the browser.
- Read the game rules screen before your first bet.

Only use links from sources you trust. Many fake colour prediction sites copy well-known names.

Wallet, Bonus and Withdrawals

Platforms like Jai Club usually offer a registration bonus (typically around ₹155), recharge bonuses and daily tasks, and many require you to bet a set amount before withdrawing. Check the wallet rules for the minimum withdrawal and any betting requirement before you recharge. Withdrawals are normally requested to a bank account or UPI ID added in the wallet. Our withdrawal guide covers delays.

Is Jai Club Safe?

Colour prediction platforms are among the highest-risk apps in this space. They are unlicensed in India, they depend heavily on referral networks, and Indian authorities have repeatedly acted against betting and colour prediction sites. If you choose to look at Jai Club, never deposit more than you can lose, ignore prediction sellers, and never share your OTP or UPI PIN.

Pros and Cons

- Simple, fast games that are easy to understand
- Web-based, so no APK is needed to start
- Every bet has a built-in loss of about 2% to 12%
- Very fast rounds make losses add up quickly
- Heavy reliance on referrals and prediction groups
- Real-money gaming is restricted in India

Final Verdict

Jai Club is a colour prediction platform, not a card game app, and its maths always favours the house. If you are looking for rummy or Teen Patti instead, see our all Yono games list . If you do try Jai Club, treat it strictly as paid entertainment with a small, fixed budget.

What Players Say About Jai Club

See why players choose Jai Club through real experiences from our growing community.

I start with the game list. Jai Club highlights 5D Lottery and lists the listed games in the lobby, so I would check the exact table and rules before choosing a game.
