The app in brief

Every Poker Star hand ends at a showdown or when betting closes the action early, with side pots settled separately when someone is all-in for a shorter stack.

Everything below assumes the same starting posture: read first, set your limits, then play.

What play looks like

Watch the pot odds and your position before acting: late seats see decisions made and can play cheaper, while early seats act on less information. Bluffing is part of the game but it costs the same as a value bet, so the arithmetic of the pot should gate every raise.

A result screen closes every round, stating what happened in figures rather than leaving you to reconstruct it.

Worth knowing before the first round:

- Betting rounds from pre-flop to river
- Showdown with ranked hands and side pots
- Hole cards dealt with a community board

- Hand history available after each pot

Sign-in and verification

The age requirement is 18 and above, enforced at registration and revisited at verification. It is a floor, not a formality.

Small habits, fewer surprises

A comfortable session has three fixed points: a spend ceiling, a time ceiling, and an exit that you choose rather than the balance choosing for you.

Your first ten minutes

Installation is the usual Android path: use the DOWNLOAD control, open the file once it finishes, and allow the install when prompted. The listed build is version 3.2.5 at approximately 67 MB; leave a little extra storage for app data.

In bullet form:

- Review the account details on file
- Launch the app and sign in or register
- Set sound and notification preferences

Payment routes and limits

The minimum eligible withdrawal is ₹150, and the listed payment routes are UPI and Bank Transfer. Before requesting a payout, confirm the account details on file and review any charges shown with the request. Processing follows the selected method together with the app’s account review, so arrival times are estimates rather than promises.

The welcome bonus

The app offers a ₹100 welcome bonus to qualifying new accounts, with the full conditions — eligibility, activation, eligible games, validity — published alongside the claim option. Bonus credit does not enter the withdrawable balance on its own; its conversion depends on the promotion’s stated requirements.

How this review fits the flow

Glance the hero, read the story, skim FAQs, then decide if the outbound brand still matches how you like to play on mobile.

This route is editorial context only—we never table balances or issue installs.

Common questions

Qualifying newcomers may claim ₹100 in welcome credit. Check the published terms for activation and game eligibility, and note that bonus and cash balances are accounted for separately.

Poker Star packages poker tables built on community cards, positional betting and standard hand rankings together with wallet controls and session history. It is aimed at adults who prefer costs and rules in plain view.

Past outcomes do not influence future ones, and no feature here guarantees a return. Sessions should be budgeted as spending, not investment.

The payment options are UPI and Bank Transfer. Deposits confirm on screen before processing, and withdrawal requests follow the same review-and-confirm pattern.

Requests begin at ₹150, sent through UPI and Bank Transfer. Confirm the destination details at submission; verification status and bonus conditions can affect the amount available to withdraw.
