Rummy 888 – A high-reward Rummy card game with an exclusive 888 bonus and fast-paced gameplay.

- Version 7.9 · 86MB

What is Rummy 888 APK

Rummy 888 is a dedicated online rummy platform designed for players who enjoy high-stakes action and frequent rewards. Unlike traditional rummy apps that focus solely on classic gameplay, Rummy 888 introduces a unique "888" bonus system — every 8th game, 8th win, or 8th consecutive day login unlocks special cash rewards.

The platform features both Points Rummy and Pool Rummy formats, with table limits ranging from casual ₹5 games to high-roller ₹500 tables. A standout aspect is its tournament structure: daily free-entry tournaments with guaranteed prize pools starting at ₹8,888, and weekly leaderboards that reward consistent play.

Rummy 888 is operated by a separate entity from the larger Yono ecosystem, focusing specifically on delivering a streamlined, reward-driven rummy experience. The app is optimized for quick gameplay sessions, making it particularly popular among working professionals and students who want to enjoy a few rounds without lengthy time commitments.

Rummy 888 App Features

- Exclusive 888 Reward System : Every 8th game played, 8th win achieved, or 8th consecutive login day triggers an automatic bonus credit (ranging from ₹8 to ₹888), creating a steady stream of additional rewards beyond standard gameplay.
- Fast-Paced Gameplay : Average game duration is 4-6 minutes, with quick-deal mechanics and instant card shuffling, allowing players to complete multiple rounds during short breaks.
- Tiered Tournament Structure : Daily free-entry tournaments with ₹8,888 guaranteed prize pools, plus weekly "888 Masters" tournaments with ₹88,888 prize pools open to players who achieve specific win milestones.
- Simplified KYC Process : Unlike many rummy apps requiring extensive documentation upfront, Rummy 888 allows new users to make small withdrawals (up to ₹500) before completing full KYC, reducing initial friction.
- Offline Practice Mode : A fully functional practice mode with virtual chips allows players to test strategies and learn game variations without any financial commitment.

- Multi-Language Support : Fully localized in English, Hindi, Bengali, Telugu, and Tamil, with voice prompts available in Hindi and English for new players.

How to download and install Rummy 888 APK

- Tap the Download Button : Click the " Download Rummy 888 APK " button above. The download will begin automatically.
- Enable Installation from Unknown Sources : If this is your first time installing an app outside the Google Play Store, go to Settings → Security → enable "Install from Unknown Sources." Most modern Android devices prompt you to allow this during installation.
- Open the APK File : Once the download completes, locate the APK file in your notifications panel or Downloads folder and tap to begin installation.
- Complete Installation & Register : After installation, open the app and register using your mobile number. The ₹888 welcome bonus is credited instantly upon first login.

How to get started with Rummy 888

- Open the Rummy 888 app and tap "Login" or "Sign Up."
- Enter your registered mobile number and tap "Send OTP."
- Enter the verification code received via SMS — no password required.
- Upon first login, complete your profile by adding a display name and avatar (optional). The ₹888 welcome bonus will appear in your wallet immediately.

Rummy 888 Withdrawal Rules

Rummy 888 has an below-average minimum withdrawal threshold of only 100 rupees, making it convenient for players who prefer frequent small withdrawals. More importantly, the platform allows withdrawals of bonuses earned using reward funds – a feature that differentiates it from many competing apps, as others often lock bonuses associated with rewards.

Withdrawal requests are typically processed within 1 to 3 hours, but may extend to up to 24 hours during weekends and public holidays. Failed withdrawal attempts will be automatically cancelled, and funds will be returned to your wallet within 12 hours. We recommend players check their transaction history in the "Account" section before contacting customer support.

Join 1000,000 Indian players and earn cash rewards every day!

Rummy 888's standout feature is its "888" milestone reward system — bonuses triggered automatically after every 8th game, 8th win, or 8th consecutive login day. Additionally, it offers a simplified KYC process allowing small withdrawals before full verification, and daily tournaments with guaranteed prize pools starting at ₹8,888.

New users receive an instant ₹888 welcome bonus upon first login — no deposit required. The bonus is credited directly to the player's wallet and can be used to join cash games. Winnings from bonus-funded games are withdrawable after meeting the platform's playthrough requirement (typically 2x the bonus amount).

Yes, Rummy 888 includes a fully functional practice mode with virtual chips. Players can access all game variations without spending real money, making it an excellent environment to learn the game or test new strategies before joining cash tables.

Rummy 888 supports UPI (Google Pay, PhonePe, Paytm), net banking, and major credit/debit cards. Deposit processing is instantaneous, while withdrawals are processed via UPI or bank transfer. The platform does not currently support cryptocurrency transactions.

Minimum withdrawal is ₹100 . First-time withdrawals up to ₹500 do not require KYC verification; subsequent withdrawals require Aadhaar and PAN verification. Withdrawals are processed within 1-3 hours on weekdays, with a maximum processing time of 24 hours during high-traffic periods.

Rummy is legally classified as a game of skill in India, with the Supreme Court affirming its distinction from gambling. However, certain states including Assam, Odisha, Telangana, and Andhra Pradesh have local restrictions on real-money rummy play. Users residing in these states should refrain from downloading or playing cash games. Rummy 888 requires users to confirm they are 18+ and abide by their local laws during registration.
