No other app here shares the first word of OK Rummy, but these are the closest by category and bonus range: Gold Rummy (the same headline, 5.3 MB smaller); IND Rummy (the same headline, 5.3 MB smaller); Max Rummy (the same headline, 5.3 MB smaller). Names close to OK Rummy suggest similar templates more often than similar payout behaviour; we do not assume either way.

What the OK Rummy numbers can tell you

The advertised ceiling on OK Rummy is â,[1]450. The listed withdrawal floor is â,[1]100, about 22% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listed file is 39.3 MB, 5 MB smaller than the Rummy median of 44.3 MB.

The listing names version 1.0.1. If the file you receive shows a different version on first launch, treat that as a different build of OK Rummy.

Two of the three directories we compare have a page for OK Rummy. They can still disagree on the bonus or the file size, so read both before treating either figure as settled.

Offer screens sometimes hide the wagering multiple. Copy that number from OK Rummy before you treat â‚¹450 as cash. How wagering works .

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.
