About Poker Club

Poker Club deals poker in the hold'em format: two private hole cards, five community cards revealed across streets, and betting rounds that begin before the flop is seen.

Whether a session lasts five minutes or fifty is left to the player — the app's job, as it sees it, is to keep the information honest in either case.

Reading the game

A hand starts with blinds posted and hole cards dealt. Betting moves clockwise from under the gun, the board arrives one street at a time, and hand rankings from a high card up to a straight flush decide the pot at showdown. Table stakes mean you can never be forced to wager more than sits in front of you.

The essentials, in list form:

- Table structure and blind levels listed in the lobby
- Hand history available after each pot
- Showdown with ranked hands and side pots
- Fold, check, call and raise controls in one row

- Hole cards dealt with a community board

Controls within reach

A search field sits at the top of the catalogue for anyone who knows the name of what they want; browsing shelves remain the default for everyone else.

Sign-in and verification

The app is intended for adults. Account details should be entered accurately at registration, since verification checks reference them, and payout problems most often trace back to details that never matched.

Session habits that help

Set a session budget before opening a game and treat it as spent the moment the session starts. Rounds settle quickly here, which is exactly why the spending decision belongs at the beginning, not in the middle.

From download to first round

Getting going takes three steps — download via the button, install, sign in. The build on offer is 4.0.6 at about 71 MB in size, and the first run lands directly in the lobby.

Features you will notice first:

- Open the listing and use the DOWNLOAD control
- Choose a format and stake within your plan
- Set sound and notification preferences

Before you claim

Eligible first-time accounts may claim a ₹75 welcome bonus. The offer’s terms govern how it is activated and where it can be used, and they include a use-by window. Receiving bonus credit is not the same as receiving withdrawable money; the two are accounted for separately.

Withdrawal basics

The smallest payout accepted is ₹100, sent via UPI and Net Banking. Review the saved account details before requesting, note any charges shown at confirmation, and let the method’s own processing time set expectations — the app makes no fixed-time promise.

- Page note

How this review fits the flow

Glance the hero, read the story, skim FAQs, then decide if the outbound brand still matches how you like to play on mobile.

This route is editorial context only—we never table balances or issue installs.

Common questions

Joining entitles eligible accounts to a ₹75 welcome bonus at most — eligibility and usage rules are in the promotion terms. The credit is not immediately withdrawable.

Round costs appear on the entry card and again at the confirmation step before a round starts, so the figure is never a surprise.

It is an Android title whose main screen is given over to hold'em-format poker with a five-card board, dealer button rotation and side-pot settlement. Around it are the account menu, balance display and payment routes needed to play and withdraw.

No. Bonus credit carries its own terms and is not automatically withdrawable, and game results vary — playing here does not guarantee income or the recovery of previous spending.

A payout needs a withdrawable balance of at least ₹100 and verified account details. The request summary presents everything — amount, route, charges — before submission.
