Rummy Boss' welcome and cash-out thresholds

Rummy Boss is a card where the welcome and the floor sit at the same mark: a Rs.100 join credit and a ₹100 minimum payout. The card carries a 4.7 rating across 386K+ installs, ships as a 40 MB package at v4.3.4, and was refreshed in Jan 2026. An 18+ rule applies, and payments are named as UPI and Bank transfer. The 386K+ install count and the 4.7 rating are the two adoption figures the card leads with, and the 40 MB package keeps the download light.

Rummy Boss data card

The Rs.100 join credit is collected at registration, while the ₹100 minimum withdrawal governs the cash-out step, so the two figures share a value but not a role: one rewards the first sign-up, the other sets the floor for payouts. Both are exact as published, as are the 4.7 rating and the 386K+ install count in the table above.

A quick pre-install checklist

- Confirm the ₹100 payout floor fits your sessions.
- Make sure UPI or Bank transfer works on your end.
- Clear 40 MB of storage before installing.
- Check the 18+ rule before you register.

Everything else the listing publishes is already in the table, so the checklist covers the practical side: storage, payment readiness, and the age bar. With the Rs.100 sign-up and the ₹100 floor read in their own contexts, the card needs no further decoding. The v4.3.4 build and the Jan 2026 refresh date finish the picture.
