- Go to Settings → Security and enable Install from Unknown Sources .
- Open the APK file and tap Install .
- Launch the app, register, and start playing rummy.

About rummy buddy

Rummy Buddy is a dedicated digital platform designed for fans of classic Indian rummy who want a smooth, no-nonsense gaming experience. Unlike generic card apps that bury rummy in a maze of other games, this app focuses entirely on the traditional 13-card rummy format, offering both points rummy and deals rummy variations. The core gameplay revolves around forming valid sequences and sets from the cards dealt, with the objective of declaring your hand before opponents do. The app streamlines this process with intuitive drag-and-drop controls and a clean table layout, making it easy to sort your hand, pick from the closed or open deck, and discard with a single tap.

The general purpose of Rummy Buddy is to provide a reliable and engaging environment for rummy enthusiasts to practice their skills or compete seriously. It is built for players who value consistency over flashy distractions. The user experience is deliberately kept clutter-free; you won't find pop-up ads interrupting your game or confusing menus. Instead, you get quick matchmaking, real-time opponent actions, and a clear scoreboard that tracks your progress. The app also includes a practice mode for newcomers to learn the ropes without any pressure, which naturally encourages responsible gaming habits from the start.

Fair play is a cornerstone of Rummy Buddy's design. The app uses a certified random number generator to shuffle cards, ensuring every deal is completely unpredictable and unbiased. The developers actively monitor the platform for collusion or multi-accounting, so you can focus on your strategy without worrying about unfair advantages. User security is taken seriously too; all personal data and financial transactions are encrypted using standard industry protocols, and the app never shares your information with third parties without your clear consent.

Community engagement is woven into the experience through chat features and player profiles that let you connect with regular opponents. The app hosts periodic tournaments where players can test their mettle against the wider community, fostering a sense of friendly competition. At the same time, Rummy Buddy promotes responsible gaming by offering session timers, deposit limits, and easy access to self-exclusion tools. It's a balanced approach that respects your time and money while delivering the classic rummy thrill you're looking for.

rummy buddy FAQ

You get the ₹60 welcome bonus automatically after your first deposit of at least ₹100, and it works with UPI, net banking, and wallets. This bonus can be used in cash games and tournaments right away, but it has a 1x playthrough requirement before withdrawal.

Yes, many tournaments on Rummy Buddy come with extra bonus rewards on top of the prize pool, like a ₹60 bonus for your first tournament entry. You'll also find special tournament bonuses during festive events that multiply your winnings.

No, the certified RNG only ensures fair card distribution in games, not bonus calculations. Your cashback and rewards are based purely on your gameplay activity and deposit history, so the RNG doesn't influence bonus eligibility or amounts.

Yes, you must complete basic KYC (like PAN and Aadhaar verification) within 7 days of signup to keep the ₹60 welcome bonus and access cashback offers. Unverified accounts won't lose the bonus, but you can't withdraw any winnings from it until KYC is done.

Just contact support via the app's 'Help' section or email, and they'll verify your identity to restore access within 24 hours. Any pending bonuses, including your ₹60 welcome bonus, are safe and will be reinstated once the account is recovered.

Referral bonuses are credited instantly to your bonus wallet when your friend deposits ₹200 or more, and you can use them in any game. Cashback is automatically added every Monday for losses from the previous week, with no need to manually claim it.
