Raja Luck, often written "Rajaluck", is a colour prediction lottery platform rather than a card game app. Players register through an invitation link that opens a sign-up page in the browser, then bet on short rounds of games like Wingo, K3, 5D and TRX Win. That is why most people search for "Raja Luck login" or "Raja Luck register" rather than an APK.

Platforms like Raja Luck grow almost entirely through invitation codes shared on Telegram, WhatsApp and YouTube, often with promises of easy commission. We explain each game type in plain words, how the invitation and commission system really works, and the red flags to check before you put in any money.

What Is Raja Luck?

Raja Luck is a web-based lottery platform. After registering with a mobile number, you recharge a wallet and play quick prediction games, with new rounds starting every minute or so. It is not a rummy or Teen Patti app, even though it is often promoted in the same groups.

The Games on Raja Luck

Whatever the game, payouts are set below the true odds and a service fee is usually taken from each bet, so the expected return on every round is less than your stake. Wingo's numbers are worked out in detail on our Jai Club page.

How Invitation Codes and Commission Work

Commission-based recruiting means one person's income comes from friends and family losing money. Do not pressure anyone to join, and treat "income" claims with deep suspicion.

How to Register on Raja Luck

- Tap the Register on Raja Luck button on this page. It opens the Raja Luck registration page in your browser.
- Enter your mobile number and choose a password.
- Complete any verification step.

- Log in and read the rules for each game before betting.
- If you prefer an app, look for a download option inside the site after logging in.

Copies of popular platforms are common, so only use links from sources you trust.

Wallet and Withdrawals

Recharges and withdrawals run through the wallet, usually by UPI or bank transfer. New members typically find a registration bonus of about ₹171 there, but platforms of this type normally require you to bet a certain amount before withdrawing, and every bonus comes with its own conditions. Check the wallet rules before your first recharge, and see our withdrawal guide for delays.

Is Raja Luck Safe?

Colour prediction platforms carry the highest risk of any apps covered on this site. They are unlicensed in India, rely on referral networks and have faced repeated action from Indian authorities. If you look at Raja Luck at all, keep any amount small, never chase losses, never recruit others, and never share your OTP or UPI PIN.

Pros and Cons

- Simple games that are easy to learn
- Browser-based, no APK needed to start
- Every round has a built-in expected loss
- Growth depends on referral commissions
- Withdrawal conditions can trap balances
- Real-money gaming is restricted in India

Final Verdict

Raja Luck is a colour prediction platform driven by invitation codes, with odds that always favour the house. If you came looking for rummy or Teen Patti, our all Yono games list is a better starting point. If you try Raja Luck anyway, use a strict, small budget and never recruit others.
