> Working RummyCircle promo code for June 2026: RC2000 doubles your first deposit up to ₹2,000. Where the code field hides, release terms and alternatives.

The current working code is RC2000 — a 100% first-deposit match up to ₹2,000 on India's biggest rummy platform. Here's exactly where to enter it, why its release beats Junglee's, and what existing users get instead.

Latest Working Codes

100% bonus up to ₹2,000 on first deposit

Latest Promo Code

The working RummyCircle code for June 2026 is RC2000 — a 100% match on your first deposit, up to ₹2,000 .

The structure is simpler than most rivals — no percentage gymnastics, no instalment ladder to decode at the deposit screen. Whatever you deposit (up to ₹2,000) is doubled, one-to-one:

Finding the field trips up more people than the code itself. In the RummyCircle app, the coupon entry sits on the Add Cash screen, below the amount selector — a small “Have a coupon code?” link that’s easy to scroll past, especially when a preselected offer banner is already occupying the top of the screen. Tap it, type RC2000, and the app shows a green confirmation with the exact bonus amount before you reach the payment page. If that confirmation doesn’t appear, stop — the code hasn’t applied, and it can’t be added afterwards.

We verify RC2000 with a real deposit each month; last check: 8 June 2026 . RummyCircle has kept this as its core acquisition offer all quarter, and even without a code the platform applies a default welcome offer automatically.

Two RummyCircle-specific quirks worth knowing before you pay. First, the platform exists as both an Android app and a mobile website, and the coupon flow is identical on both — but bonuses credited on one carry over to the other, so don’t panic if you deposited on the web and open the app to an apparently different balance view; check the wallet’s bonus section. Second, RummyCircle frequently shows a preselected deposit offer as a banner at the top of Add Cash. That banner is an offer slot, not a decoration — if it’s occupied, RC2000 may need you to switch the selected offer first, since only one offer attaches per deposit.

Terms That Actually Matter

A ₹2,000 ceiling looks modest next to Junglee’s ₹5,250 or A23’s ₹10,000. The release schedule is where RummyCircle wins that comparison back.

Release speed is the headline feature. RC2000's bonus converts to withdrawable cash in wagering-linked tranches as you generate rake at cash tables — a structure that unlocks meaningfully faster than the 2% instalment drip Junglee applies to JRWELCOME. In practice, a player putting in regular sessions can clear the entire ₹2,000 within the validity window, whereas the same volume on Junglee releases only a fraction of the bigger headline. Smaller ceiling, higher completion rate: for everyone short of a daily grinder, that trade usually nets out in RummyCircle's favour.

The rest of the fine print:

- First deposit only , one account per PAN; duplicate accounts get frozen with their balances.
- Cash games release the bonus — points, pool and deals rummy all count. Tournament buy-ins largely don't.
- Validity window applies — unreleased bonus expires; check the countdown in your wallet's bonus section.
- TDS on net winnings is deducted at source, which RummyCircle handles automatically — the figure you withdraw is post-tax, so don't mistake the deduction for a missing bonus.
- Restricted states can't deposit at all.

The honest framing: doubled money you can actually finish unlocking beats quintupled money you can't. If you're choosing a deposit amount, ₹500–₹1,000 is the sweet spot for most regular players — enough to claim a meaningful match while keeping the release target comfortably reachable. Reserve the full ₹2,000 claim for genuinely frequent play, and size everything to your real budget; see responsible gaming .

If the Code Doesn't Work

In order of likelihood:

- You've deposited before. RC2000 is strictly new-money. Even an old ₹25 deposit from years back disqualifies the account — check your promotions tab for current reload offers instead (see below).
- A banner offer is already applied. RummyCircle often preselects a default offer on the Add Cash screen. You may need to remove or switch it before RC2000 will take — only one offer per deposit.
- Typo. RC2000 — letters uppercase, the digits are two-zero-zero-zero, no spaces.
- The code rotated. If RummyCircle retires RC2000, the Add Cash offer carousel shows its replacement immediately; this page updates within days.
- KYC hold. Occasionally the bonus credits only after basic verification clears. Finish KYC and the locked amount appears.

Existing users: RummyCircle runs a steady rotation of reload offers — typically 25–100% matches capped around ₹500–₹1,000, plus weekend cashback during tournament pushes. These are personalised, surface in the promotions tab and via email, and usually expire within days. Two patterns we've observed are worth exploiting: lapsed players who stop depositing for a few weeks tend to receive the richest win-back matches, and reload offers cluster around big tournament series when the platform wants tables full. The general pattern of where these offers hide is the same across apps; our rummy coupon codes guide maps every hiding place — promotions tab, Add Cash carousel, email and SMS.

Alternatives Worth Comparing

First-deposit offers are one-per-platform, so compare before you commit:

- Junglee Rummy promo code — JRWELCOME, 250% up to ₹5,250. Bigger headline, much slower 2% release; better only if you play heavy volume.
- A23 Rummy promo code — A23FIRST, up to ₹10,000 in instalments from India's oldest rummy operator, with a low ₹50 minimum withdrawal.
- Rummy 365 — RB365MAX adds a flat ₹500 on deposits of ₹1,000+, on top of a welcome bonus releasing at ~10%. The strongest real-value package we track; the full Rummy 365 review has our withdrawal test results, and the Rummy 365 APK page covers direct installation.

All five current codes sit side-by-side in the master rummy promo code roundup . Within that field, RC2000's pitch is balance: India's biggest player pool (40M+), TDS handled for you, instant-to-48-hour withdrawals, and a bonus you'll actually finish releasing. Read our full RummyCircle review for where it shines and where it doesn't.

How to Use the Code

Register with your mobile number and verify the OTP. Don't look for a code box at signup — RummyCircle takes promo codes only at the deposit step.

Tap the green Add Cash button. Deposit ₹2,000 to claim the full match; smaller amounts are doubled proportionally.

Below the amount selector, tap Have a coupon code? , type RC2000 and apply. A green confirmation shows the exact bonus before payment.

Complete the deposit. Cash credits instantly; the matched bonus appears in your locked bonus balance alongside it.

Play points, pool or deals cash games — the bonus converts to withdrawable cash in wagering-linked tranches, noticeably faster than the 2% drip rivals use.

RC2000 — a 100% match on your first deposit up to ₹2,000. We last verified it on a real deposit on 8 June 2026. Without any code, RummyCircle's standard welcome offer still applies automatically.

On the Add Cash screen: choose your amount, tap 'Have a coupon code?' beneath the amount selector, enter RC2000 and apply before paying. Codes cannot be added after the payment goes through.

In wagering-linked tranches as you generate rake at cash tables — materially faster than Junglee's 2% instalments. A regular player can realistically clear the full ₹2,000 within the validity window.

Yes — reload and cashback offers rotate through the in-app promotions tab and email, typically 25–100% matches with caps around ₹500–₹1,000. They're account-specific, so check your own promotions tab rather than public lists.

RummyCircle (Games24x7) is India's largest rummy platform with 40M+ registered players, certified shuffles and TDS handled on winnings. Our full RummyCircle review covers withdrawal timings — instant to 48 hours in our tests.
