Rummy East records 4.4 stars on its listing, with 373K+ installs logged so far—a healthy base of players for a room that carries the Rummy Bonus Picks label. As that label suggests, the offer matters here, and the sign-up side does not disappoint on paper: a Rs.51 credit awaits new registrations.

The Rummy East join offer

The welcome package is built around Rs.51 in join credit, a modest but clearly stated opening figure framed purely as a bonus for new players. If bonuses are what draw you to a new room, this is the number to track during registration. Rummy East keeps the entry barrier low on storage too: the app installs at roughly 38 MB, and the active build is v2.5.0, refreshed in Nov 2025.

How do Rummy East withdrawals work?

At the other end of the session, the minimum withdrawal sits at ₹100—the cash-out floor your balance must cross before winnings can move out of the account. For funding and payouts alike, the listing names two channels: UPI and Net Banking. No card option appears, and no third-party wallet either, so the payment picture stays simple and bank-centric.

Here is Rummy East's fact sheet at a glance:

- App type: Rummy Offer Picks room
- Store score: 4.4
- Install count: 373K+
- Download size: 38 MB
- Release version: v2.5.0
- Refresh date: Nov 2025

- Age gate: 18+

On the whole, Rummy East is an easy room to sum up: a Rs.51 welcome, a ₹100 payout floor, and UPI or Net Banking for money movement. The 4.4 rating and the 373K+ install tally both point to an established, actively played title, and the 18+ gate applies before you sign up.

The Rummy East entry names exactly two payment methods: UPI and Net Banking. Neither Paytm nor card payments appear on the listing, and the directory mentions no wallet options for this app. Players who want to deposit or withdraw should check whether their preferred method is one of the two listed.

The Rummy East listing records a ₹100 minimum withdrawal. That means a player needs to reach at least ₹100 before requesting a cash-out, as the directory presents it. Because withdrawal floors can change, checking the operator's own page before cashing out is a sensible habit.

Yes. The Rummy East listing links a direct APK file for Android rather than a store page, so sideloading is involved: the file is downloaded and installed straight on the device. The listing gives the package size as 38 MB and the version as v2.5.0, refreshed Nov 2025.

The 373K+ figure is the install count as recorded in the Rummy East listing, so the directory shows more than 373,000 installs for the app. It is a point-in-time number from the listing, not a live counter. The same entry pairs it with a 4.4 rating and an 18+ age limit.
