What the listings give for Rummy Home: category Rummy, a headline offer of up to â‚¹500, Android 5.0+ as the minimum system and a 48 MB package. It appears on 1 of the 3 directories we read: allyonobonus.net.

The listings describe Rummy Home as a rummy table app. Rummy is a skill-and-luck game, but the money terms of Rummy Home still vary by operator. It is one of 11 Rummy-named listings here, ranked 2 by advertised ceiling inside that name group. A single directory listing (allyonobonus.net) means nothing about Rummy Home has been cross-checked.

Up to â‚¹500 is one of the louder claims in Rummy (above the Rummy median of â‚¹450; rank 6 of 30). Louder headlines such as up to â‚¹500 tend to carry stricter wagering, so find the turnover multiple and expiry before chasing it.

Listed withdrawal floor: â‚¹100, with payouts described as UPI, Paytm and bank transfer.

Registration for Rummy Home, as the listings describe it: install the file, open the app, enter a phone number and the OTP, then look for the welcome credit (up to â‚¹500). Verification is listed as: Quick registration, with ID/bank verification normally asked when you first cash out. Note which Rummy Home screen shows the credit and what its expiry is; you will need both if a dispute starts. The payout routes named are UPI, Paytm and bank transfer; use a UPI ID or bank account held in your own name, since a name mismatch is a common reason a first withdrawal stalls.

Rummy Home lists 48 MB, close to the 44.5 MB median for Rummy listings, and asks for Android 5.0+. The listings show version 1.3.1. Last-updated field on the Rummy Home listing: Sep 24, 2026 (date label on allyonobonus.net).

Apps like Rummy Home are often re-uploaded by third parties, so the first check is the host of the file, not the app name. Our download-source guide explains what to look at for Rummy Home (48 MB, Android 5.0+).

Afterwards, turn off unknown-app installs for that browser and clear the Rummy Home APK (48 MB) from Downloads.

Closest matches in our directory, including same-name siblings: Rummy Zip (a headline â‚¹40 lower, 3 MB larger); Rummy 91 (a headline â‚¹55 higher, 18 MB larger); Rummy Nabob (the same headline, 4.9 MB smaller). Differences in size or headline say little about payout speed for Rummy Home, which none of the listings document.

Possibly suits readers comfortable with rummy scoring who want to read cash terms before depositing. Rummy Home is not for you if the money matters, if you are under 18, or if the publisher stays anonymous after you check.

What the Rummy Home numbers can tell you

The advertised ceiling on Rummy Home is â‚¹500. The listed withdrawal floor is â‚¹100, about 20% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listed file is 48 MB, 3.8 MB larger than the Rummy median of 44.3 MB.

The listing names version 1.3.1. If the file you receive shows a different version on first launch, treat that as a different build of Rummy Home.

One of the three directories we compare has a page for this name. A second page quoting the same size and the same â,¹500 is the cross-check this listing does not have.

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.
