What is Rummy Legend

Rummy Legend is a digital adaptation of classic rummy rules, blended with features expected from modern mobile and web games:

- Core gameplay: Draw, meld, discard — create valid sets and runs before opponents. The game emphasizes pattern recognition, discard strategy, and risk management.
- Multiplayer focus: Play real-time matches against friends, casual players, or ranked opponents worldwide.
- Competitive formats: Casual rooms, private tables, timed matches, tournaments, and seasonal leagues.
- Social features: Chat, emojis, friend lists, clubs/guilds, and live replays to learn from top players.
- Polish: Clean UI, crisp sound design, and fast matchmaking for lower friction and higher retention.

The game is targeted at players 18+ (as a standard age restriction in many jurisdictions) and uses virtual currency for in-game transactions; virtual coins do not represent real money and are meant solely for entertainment.

- Turn Flow

- Draw: Take from the closed deck or the open discard pile.
- Meld (Optional): Place valid sets/runs on the table.
- Discard: Place one card face-up to the discard pile.
