Rummy Ola's card shows a 4.4-star rating, 395K+ installs, and a 36 MB install package; the offer that anchors the page is a Rs.51 join credit.

Rummy Ola's Rs.51 bonus

Create an account and the Rs.51 credit lands in the new balance. It exists so a first-time player can sit at tables without funding the account immediately, and it stays separate from any deposit the player later adds. On the payout side, the card's minimum is ₹100, which means winnings become withdrawable once the balance crosses that line.

Cash-outs begin at ₹100

The ₹100 minimum is the number to remember on the way out. Below it, cash-out requests do not proceed, so players typically keep playing until the balance clears the mark. Deposits and withdrawals run on UPI and wallet—the only channels named on the card—and no other payment method is listed.

- Join credit applied at account creation
- Cash-out channel opens at the minimum payout
- UPI and wallet carry deposits and withdrawals
- Entry restricted to adult players

Between the 4.4 stars and the 395K+ installs, the card describes a client with an established base, while the Jan 2026 stamp on build v3.8.2 keeps the refresh history recent. The 36 MB package downloads quickly on most connections, and the 18+ rule governs real-money play from sign-up onward. For players who track these details, the four-star-plus band, the package size, and the build date line up into a consistent profile, and the two named rails cover the everyday money movement.

The Rummy Ola listing records a Rs.51 join offer as the welcome deal for new accounts. It is advertised in the join context, and the page does not explain how the credit is applied. Confirm the delivery details with the operator before treating it as a guaranteed amount.

The Rummy Ola listing records a ₹100 minimum withdrawal as its lowest cash-out amount. This payout floor is distinct from the Rs.51 join offer, which applies when you open an account rather than when you withdraw.

The Rummy Ola listing records 395K+ installs alongside a 4.4 rating. The download figure is a cumulative snapshot captured when the listing was compiled, not a live counter of current installs.

The Rummy Ola listing names UPI and wallet as its payment methods. The page uses the term "wallet" without naming a particular service, so the advertised channels are exactly as written: UPI and wallet.
