> Working Rummy Club promo code for June 2026: CLUB600 doubles your first deposit up to ₹600. How to apply it, the terms decoded, and stronger alternatives.

CLUB600 is the current working code — a 100% match on your first deposit up to ₹600. Here's how to apply it on this minimal points-rummy app, what to expect, and when a rival code is the smarter pick.

Latest Working Codes

100% bonus up to ₹600 on first deposit

Latest Promo Code

The working Rummy Club code for June 2026 is CLUB600 — a straight 100% match on your first deposit, up to ₹600 .

Whatever you deposit up to ₹600, Rummy Club matches it 1:1 in bonus cash:

That ₹600 ceiling is modest — RummyCircle caps at ₹2,000, Junglee at ₹5,250 — but Rummy Club isn't competing on bonus size. It's a 32 MB points-rummy app that does one thing, and the small, 1×-wagering bonus is honest about what it is. Stack it on top of the ₹30 free signup credit covered in our Rummy Club bonus guide .

Terms That Actually Matter

The conditions behind CLUB600, decoded:

Locked bonus, instalment release. The ₹600 isn't withdrawable on arrival. It converts to real cash as you play points-rummy cash games — but with only a 1× wagering requirement, it clears far faster than the 3×–6× terms big apps attach to their headline numbers. For a points grinder, that's the offer's quiet strength.

First deposit only. One welcome match per person, device and PAN. The code works only on your very first add-cash; there's no second chance and no retroactive credit.

UPI only. Rummy Club has no Paytm support in either direction. Have a working UPI app ready before you deposit.

The ₹150 withdrawal floor. This is the term to weigh hardest. Rummy Club's minimum withdrawal is ₹150 — the highest of any app we cover. A small deposit plus a small bonus can leave you needing a decent winning session just to reach the cash-out threshold. Size your deposit so that even a modest win clears ₹150 comfortably.

Standard exclusions: 18+, one account per PAN, restricted states blocked, withdrawals gated on KYC. Decide your deposit ceiling before you start — our responsible gaming guide explains how to set one.

If the Code Doesn’t Work

Likely causes, most common first:

- You’ve deposited before. CLUB600 is first-deposit only. A past add-cash on the same PAN or number kills eligibility — check the Add Cash screen for any existing-player offer instead.
- You applied it after paying. Codes only work when entered before the deposit. There’s no fix afterwards; support can’t add it later.
- The code rotated. Small apps refresh codes occasionally. If the Add Cash screen lists a different live code, use that one.
- Region restriction. Restricted-state players can’t deposit on any code.

If none of these fit and the bonus preview simply won’t appear, contact in-app support before paying, with a screenshot — see our Rummy Club customer care page for the real support channels (and the fake ones to avoid).

Alternatives Worth Comparing

A first deposit is a one-shot decision per app, so line them up first:

- Rummy 365 — our top-rated app overall, with a ₹3,000 package that releases faster than the big three and instant UPI payouts. If you want more than bare-bones points rummy, start with the Rummy 365 APK .
- Rummy Guru — a ₹1,000 match and a ₹100 withdrawal floor, a friendlier cash-out than Rummy Club’s ₹150.
- The big-brand codes — JRWELCOME and A23FIRST pay several times more on headline; the full list is in our rummy promo code roundup.

The fair verdict: pick CLUB600 if you genuinely want Rummy Club’s minimalist app and just want the match applied cleanly. If the code value itself is what you’re shopping for, the best rummy bonuses table shows where the bigger numbers — and lower withdrawal floors — are.

How to Use the Code

Grab the 32 MB app from our Rummy Club APK guide and register with your mobile number — the ₹30 free signup credit lands automatically.

₹600 maxes out the 100% match. Depositing more than ₹600 adds bankroll but no extra bonus.

Type the code and apply. The deposit screen previews your exact bonus — confirm it shows before you pay.

Rummy Club is UPI-only — there's no Paytm option in either direction. Cash credits instantly; the bonus sits in your locked balance and releases as you play points rummy.

Wager the bonus at cash tables, complete KYC, then withdraw via UPI once you clear the ₹150 minimum — the highest floor on our list.

CLUB600 — a 100% match on your first deposit up to ₹600, verified in June 2026. Enter it on the Add Cash screen before your first payment; it can't be applied afterwards. The ₹30 free signup credit is separate and needs no code.

Rummy Club's welcome match usually applies automatically, but entering CLUB600 guarantees the full 100% is credited and avoids a half-applied offer. There's no downside to typing it in.

Rummy Club is a tiny 32 MB app built only for points rummy — no tournaments, no reload calendar, no big-brand marketing budget. A ₹600 ceiling fits that model. For ₹5,000+ welcome codes, see our rummy promo code roundup .

In instalments tied to your cash-game play, like every mainstream rummy bonus. The locked ₹600 converts gradually as you wager at points tables — and with a 1× requirement it clears faster than the big apps' multi-times-over terms.

It's a small skill-gaming APK with UPI payments and standard KYC. Rummy is legal as a game of skill in most Indian states; restricted states are excluded. See our Rummy Club review for our three-week payout test.

Related Pages

18+ only. Promo codes are time-limited and may be region-restricted or capped. Codes listed here are checked monthly; if a code has expired, the app's current default offer usually still applies. Real-money rummy involves financial risk and may be addictive.
