About Rummy Comfun

Rummy Comfun is a 13-card game centered on forming valid melds — sets of the same rank or sequences of the same suit. Strategy, timing and careful melding are the keys to victory.

- Low bandwidth friendly — Works reliably on 2G/3G and Wi-Fi networks.
- Instant matchmaking — Join a table quickly with minimal waiting.

Basic Rules

- Players: 2–5 players per table.
- Cards: Each player is dealt 13 cards.
- Objective: Form valid melds — sets and runs — from your hand.
- Play: Players take turns drawing and discarding until someone arranges a valid hand and declares.
- Winning: The first player to arrange and reveal a legal 13-card hand wins the round.

Mode Highlights

- Pool Rummy: Players contribute chips to a shared pool. Players are eliminated when their penalty points reach the table limit. Common formats include 101-point and 201-point pools, with top players sharing the prizes.
- Private Room: Create a private table and invite only friends or family for a custom game.
- Bet Rummy: Similar to points rummy but with escalating stakes — higher bets lead to bigger wins. The winner of the hand takes the chips on the table.
- Deal Rummy: Players are given chips for a fixed number of deals. At the end of the agreed set of deals, the player with the highest total collects the pot — this mode rewards long-term strategy.
- Royal Rummy: A faster, higher-stake variant of classic rummy. Royal tables typically have larger bets, no ads, and private invitations are restricted to protect players' chips.
