Gameplay and Rules

- Objective : Arrange your hand into valid melds—runs (consecutive cards of the same suit) or sets (same-ranked cards of different suits). The first player to make valid combinations and declare wins the round.
- Dealing : Depending on the variant, players receive 13, 21, or another number of cards. One card starts the discard pile; the remaining deck forms the draw pile.
- Turns : On each turn, draw a card (from the deck or discard pile), then discard one card.
- Jokers/Wildcards : Jokers substitute missing cards in sets or runs. Some variants include a “wild card” selected during the deal.
- Declaration : To win, make a declaration—an arrangement of valid melds that meets the game’s minimum requirements (often at least two runs, one pure run without a joker, etc.).

Features

- Real-time matchmaking : Quick pairing by skill level and region reduces wait times and keeps matches competitive.
- Practice tables : Play against bots or in tutorial modes to learn mechanics without pressure.
- Custom rooms & private tables : Invite friends, set buy-ins, and tailor rules for private tournaments.
- Visual clarity : Card animations, readable typefaces, and sound cues that add immersion without clutter.

- Progression & rewards : Daily login rewards, seasonal leaderboards, badges, and in-game currencies to keep players engaged.
- Cross-platform sync : Play on mobile and continue on web (if supported), keeping progress intact.
