Join offers often decide which rummy card gets installed first, and Rummy Tour enters with a Rs.75 welcome credit—the promo figure sitting on the welcome side of the listing. The card, filed under Rummy Bonus Picks, keeps its numbers in plain sight, and nothing about the page hides the payout side either.

Check Rummy Tour's payout floor

Withdrawals from Rummy Tour start at ₹100. That figure appears only in the cash-out context, and it is the number you measure winnings against once you begin playing. The payment channels named on the card are UPI and wallet, and the listing adds no other method beyond those two.

Rummy Tour's 51 MB build

The install comes in at 51 MB and the build is stamped v4.1.8, with Feb 2026 as the refresh month on the card. The install counter reads 264K+, the rating holds at 4.5 stars, and the age gate is 18+. Those are the only figures the listing carries, so there is no hidden column of numbers to hunt for, and the financial pair on the card—the Rs.75 join credit and the ₹100 payout floor—each stays in its own context without ever crossing over. The version number is what it is, the refresh month is what it is, and the same holds for every line above, which keeps the card honest to skim.

Rummy Tour is listed with a Rs.75 join offer, the amount the page attaches to new-player sign-up. It appears strictly in the welcome-offer context; the same entry lists a ₹100 minimum withdrawal on the cash-out side. The directory records 264K+ installs and a 4.5 rating alongside the offer.

The Rummy Tour listing sets the minimum withdrawal at ₹100. That figure belongs to the withdrawal context of the page and marks the lowest cash-out the entry mentions. For payments, the page names UPI and wallet, and the record lists no other methods for the app.

Rummy Tour comes through a direct APK link at 51 MB, running version v4.1.8. The listing records the refresh month as Feb 2026. Because the build arrives outside the app stores, sideloading is required, and the file should be checked at the operator's destination before installation.

No. The Rummy Tour entry names exactly two payment methods: UPI and wallet. The directory adds no further channels to the record, so anyone planning deposits or withdrawals should work with the two methods shown, keeping the ₹100 minimum withdrawal in mind.
