- Rummy Zip at a glance
- Why the package field stays empty
- Bonus ceiling vs withdrawal floor
- How this page differs from nearby rummy rows
- Practical checks

Rummy Zip is a mid-size rummy row with an unusually high advertised welcome ceiling. Our snapshot stores version 1.0.03 , 51 MB , welcome up to â‚¹460 , withdrawal floor â‚¹100 , Android 5.0+. It appears on 2 of the 3 reference directories we compare.

Peer mirrors sometimes advertise welcome bands far above or below â‚¹460 and quote sizes in the mid-20s to mid-50s MB. A spread that wide usually means different builds or marketing pages, not one locked offer.

Unlike Diwa 91 (where several public directories repeat com.diwa91.app), Rummy Zip does not yet have a stable applicationId we can cite from independent sources. Filename-looking labels on mirror pages are not a package string. After install, read Settings – Apps – App info and keep the real package, version and size.

â‚¹460 vs a â‚¹100 floor looks workable on paper. High ceilings almost always hide wagering multiples, game exclusions and expiry windows. Screenshot the Promotions and Withdraw screens before the first deposit. Plan around the floor and the turnover line, not the banner.

Rummy King on this site is a heavier 79.5 MB cash-style row with a low â‚¹75 ceiling and a Play Store name collision. Rummy Wealth pairs a tiny â‚¹51 welcome with an unusual â‚¹13 floor. Zip is the high-ceiling, mid-size middle case – useful when you are sorting three lookalike rummy APKs by economics rather than by icon.

Refuse SMS or accessibility permission grabs. Match UPI or bank holder name to the registered account. If a host swaps the CDN without changing the brand art, treat it as a new file until package and size line up again. Editorial re-check: 28 Oct 2026. 18+ only.

What the listing supports

- Covered on 2 of 3 reference directories.

- Fixed version label 1.0.03 gives a match target.
- High advertised ceiling makes wagering education the useful angle.
- Complete soft fields: size, floor, Android, payout methods.

Limits of this listing

- Package id unstable across the open web.
- Peer pages advertise wildly different welcome figures.
- Size claims elsewhere include mid-20s to mid-50s MB builds.
- No watched deposit or payout on this desk.

What the Rummy Zip numbers can tell you

The advertised ceiling on Rummy Zip is â‚¹460. The listed withdrawal floor is â‚¹100, about 22% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listed file is 51 MB, 6.8 MB larger than the Rummy median of 44.3 MB.

The listing names version 1.0.03. If the file you receive shows a different version on first launch, treat that as a different build of Rummy Zip.

Two of the three directories we compare have a page for Rummy Zip. They can still disagree on the bonus or the file size, so read both before treating either figure as settled.

Offer screens sometimes hide the wagering multiple. Copy that number from Rummy Zip before you treat â‚¹460 as cash. How wagering works .

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.

Things to check before you install

Check level: Standard Rummy Zip has a check level of standard (2 of 9 on our checklist).

What we noticed in the listing

- Format: card or board game with some player decisions

Worth knowing

- Filename-only labels on mirror sites are not a package id.

- Never share OTP to unlock a Zip bonus.

Details that would help

- A withdrawal result for Rummy Zip that you can see in the app

Based on listing data and public information. How check levels work Â· Report or correct

Lean checklist for Rummy Zip

- Download only from a host you can name. Listed size for Rummy Zip is 51 MB â€" a large gap is a stop sign.
- Confirm version 1.0.03 (or note the update) and the package name in App info. Listings say: mobile OTP login; expect PAN or bank-account check at first payout
- Screenshot the offer (Up to â,¹460) and the Withdraw floor (â,¹100) before any deposit. Match UPI or bank holder name to registration. Try a low-stake or practice table first to see fee and rake lines.

Directory snapshot: version 1.0.03, 51 MB, up to â,¹460, â,¹100 floor, Android 5.0+. Peer mirrors can disagree - we keep the snapshot and flag the spread.

Public directories do not yet agree on one applicationId. After install, copy the string from App info yourself.

Only if live wagering and the â,¹100 floor allow it. Treat â,¹460 as a marketing ceiling.
