Rummy Nabob APK Download

> **OVERVIEW**
>
> Download the latest official Rummy Nabob APK (v9.2.0, 41 MB, Android 5.1+). Step-by-step install guide, ₹41 signup bonus, safety checks and FAQ.

Latest official version, verified file details and a two-minute install guide — plus the ₹41 free signup bonus that made Rummy Nabob famous.

App Overview

Rummy Nabob is one of India's most-downloaded direct-APK rummy apps, and the reason is its signup offer: ₹41 free the moment you register , no deposit required. Beyond the headline, it's a competent, lightweight rummy client — Points, Pool and Deals formats, fast matchmaking at micro stakes, and UPI withdrawals that cleared in under an hour in our testing.

At 41 MB, the APK is one of the lighter real-money clients around, and it runs smoothly on entry-level phones — we tested down to a 2 GB RAM Android 9 device without frame drops at the table.

If you want the full picture — bonus release terms, withdrawal timings, pros and cons — read our complete Rummy Nabob review . This page covers everything you need to download and install the app safely.

APK Requirements & Compatibility

The current official build is v9.2.0 (May 2026), a 41 MB download requiring Android 5.1 or newer . That covers effectively every Android phone sold in India since 2016.

There is no iOS version; iPhone users are limited to the mobile-browser version, which works but can't send table notifications.

Before installing, double-check two things on lower-end phones: at least 200 MB free storage (APK + installed size), and that you're downloading over Wi-Fi or a stable 4G connection — a corrupted partial download is the most common cause of "App not installed" errors.

Safety Checklist

Direct APK distribution is normal for rummy apps, but it puts the safety burden on you. Three rules:

- Official source only. Download from the link on this page or the app's official site — never from Telegram channels, YouTube descriptions or APK mirror sites.
- Check the file size. The genuine v9.2.0 is 41 MB. A file that's dramatically smaller (a stub installer) or larger (bundled extras) is not the official build.
- No mod APKs, ever. "Unlimited bonus" mods of server-side card games are technically impossible — every one is malware targeting your UPI apps and OTPs.

The app requests network, storage and notification permissions only. If an install screen asks for SMS, contacts or accessibility access, abort.

Honest Take Before You Install

The ₹41 free bonus is real but small — think of it as a risk-free trial of the cash tables, not free money. Like all signup credits it carries a one-time wagering requirement before winnings unlock, and you'll need PAN-based KYC before your first withdrawal.

If you'd rather start with a bigger matched bonus instead of a free credit, compare the Rummy 365 ₹3,000 welcome offer or the ₹51 credit at Holy Rummy before committing your first deposit. All three apps coexist happily on one phone — many players keep two installed and play wherever the tables are softer.

18+ only. Real-money rummy involves financial risk — set a budget before your first table and read our responsible gaming guide .

How to Install the APK

Tap the download button at the top of this page and save the file (41 MB). Use Chrome or your default browser — avoid APKs forwarded on WhatsApp or Telegram.

When prompted, open Settings → Install unknown apps and allow your browser. Android shows this automatically the first time you open an APK.

Tap the downloaded file and press Install. Installation takes about 20 seconds on most phones.

Go back to Settings → Install unknown apps and disable the browser permission. You only need it during installs.

Sign up with your mobile number and OTP. The ₹41 free bonus credits to your account instantly — no deposit needed.

Yes, if you download the official build. The genuine v9.2.0 APK is 41 MB and requests only network, storage and notification permissions. Skip any version asking for SMS or contacts access, and never install 'mod' APKs — they exist to steal wallets and OTPs.

Google Play only lists a small whitelist of real-money rummy operators in India. Most apps, including Rummy Nabob, distribute legally via direct APK download instead. This is normal for the category.

Every new account receives ₹41 free on signup, with no deposit required. It's credited as bonus cash you can use at cash tables; winnings become withdrawable after you complete KYC.

The APK is 41 MB and the installed app uses about 150 MB. Any phone on Android 5.1 or newer with 2 GB of RAM runs it comfortably.

The app prompts you in-app when an update is available and downloads the new APK itself. Your balance and KYC carry over — updates install over the existing app, never uninstall first.
