Yn777 (also written YN777 / YN 777) appears both as a cash club lobby on rummy directories and as a non-cash Play Store spin game . Those are different products. This page covers the cash-style directory listing we tracked: category Yono Clubs, up to â‚¹450 , 43 MB , withdrawal floor â‚¹100 , Android 5.0+ quoted on sibling pages, brand label "Yn777", source rummystores.com (1 of 3 references).

A Google Play listing named "YN 777 – Real Rewards Game" is a virtual-coin spin title, not this cash lobby. We do not link Play for Yn777. Third-party cash pages quote sizes from ~43 MB to 65 MB and bonuses from tens of rupees to four figures – we keep our rummystores-derived snapshot (43 MB, up to â‚¹450, â‚¹100 floor) and mark the spread.

Directory copy frames Yn777 as a fast club lobby (short rounds, mixed game tiles). Short rounds raise spend speed more than skill does – set a â‚¹ timer before you open the lobby, not after a first win screen.

Headline up to â‚¹450; listed floor â‚¹100. Payout routes and KYC are directory claims only. Because Play and cash builds share a similar brand word, never trust an icon alone: compare package name, installer host and whether the wallet talks about real â‚¹ withdrawals.

Tracked file 43 MB with a rolling version label. If a mirror shows 60+ MB under the same name, treat it as a different build until package and signature match. Sideload only from a host you can name; revoke unknown-source permission afterwards.

Anyone looking for the Play Store rewards spin app, or anyone who needs two agreeing cash directories before depositing.

Cash snapshot from rummystores.com fields stored here; Play collision noted from the public Play listing for com.yn777.onlinegameplay (information only – not linked as a cash download). Re-checked 2026-10-28. 18+.

What the listing supports

- Clear separation documented between cash directory rows and Play Store spin titles under similar names.
- â‚¹50 / â‚¹100 is a complete soft-field pair for offer-screen comparison.
- 43 MB is a concrete size target when sorting lookalike installers.
- UPI and bank transfer are named on the source listing.

Limits of this listing

- The version is a rolling label, so you cannot confirm you have the file anyone reviewed.
- No company or registered address is named on the listings we read.
- No independent check of fairness or payout speed that we could find.
- Distributed outside the Play Store, so updates are not automatic.

Listing snapshot

Compare this listing: withdrawal thresholds Â· all Yono Clubs apps

What the Yn777 numbers can tell you

The advertised ceiling on Yn777 is â‚¹450. The listed withdrawal floor is â‚¹100, about 22% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listed file is 43 MB, 1 MB larger than the Yono Clubs median of 42 MB.

The version line says Latest, with no build number. Two files can both be called Yn777 and still not be the same build.

One of the three directories we compare has a page for this name. A second page quoting the same size and the same â‚¹450 is the cross-check this listing does not have.

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.

Closest Yono Clubs listings

The three listings in this group with the nearest advertised bonus. Every figure is that app's own claim.

Things to check before you install

Check level: Extra Yn777: 5 of 9, check level extra.

What we noticed in the listing

- Format: chance-based or club-style lobby (quick rounds, so a budget helps)

- Listed on 1 of 3 reference directories we compare
- No fixed build number published, so a file cannot be matched to a release

Worth knowing

- Look-alike apps copy the Yn777 icon first and behaviour second; compare the package name.
- The headline up to â‚¹450 is not the amount Yn777 credits; screenshot the credit screen at once.

Details that would help

- A second independent directory listing the same package name and size
- A fixed version number tied to a release date

Based on listing data and public information. How check levels work Â· Report or correct

Before you fund Yn777

- Download only from a host you can name. Listed size for Yn777 is 43 MB â€” a large gap is a stop sign.
- No fixed build is published for Yn777; after install, compare package name and size in App info. Listings say: quick phone registration; ID/bank checks normally at first cash-out
- Screenshot the offer (Up to â‚¹450) and the Withdraw floor (â‚¹100) before any deposit. Match UPI or bank holder name to registration. Note which lobby tiles share a wallet or promotion.

No. Play listings such as â‚¹N 777 â‚¹Real Rewards Gameâ‚¹(com.yn777.onlinegameplay) and â‚¹N 777 â‚¹Lucky Wheel Gameâ‚¹(com.yn777.casinocardgame) are entertainment / virtual-coin spin titles. This page covers the cash-style directory listing only and intentionally omits Play CTAs.

Up to â‚¹450 welcome, 43 MB file, â‚¹00 withdrawal floor, Android 5.0+, source rummystores.com inside our trio.

Because the Play apps under similar names are not the cash product described here. Mixing them confuses package checks and user expectations.

Editorial re-check 28 Oct 2026.
