- Rummy Wealth at a glance
- Why a tiny welcome still needs caution
- File and host notes
- Vs Zip and King

Rummy Wealth is the opposite of the high-banner rummy pages: our snapshot shows version 1.0 , 60.9 MB , welcome up to â‚¹51 , and an unusual withdrawal floor of â‚¹13 . Android 5.0+. Payout methods named as UPI and bank transfer on the directory row.

Most club and rummy rows on this site quote â‚¹100 floors. A â‚¹13 floor is a distinctive fingerprint – and also a place where live apps sometimes raise the floor after KYC without updating mirror pages.

A â‚¹51 ceiling is harder to oversell than a â‚¹500 banner, but stake risk is unchanged. The useful check is whether the Withdraw screen still shows â‚¹13 after you bind PAN and bank proof. If it jumps to â‚¹100 or â‚¹300, the directory row is stale.

60.9 MB is heavier than many light club APKs. Keep the publisher CDN host in view when you download; host swaps with the same icon are common. Package is not install-confirmed here – copy App info after install.

Rummy Zip pushes a high ceiling. Rummy King is a 79.5 MB cash-style row with a Play collision warning. Wealth is the low-bonus / odd-floor case. Use those three contrasts when three icons look alike. Guides: UPI/KYC checklist Â· verify APK . Re-check: 28 Oct 2026. 18+ only.

What the listing supports

- Unusual â‚¹13 floor is a distinctive fingerprint vs â‚¹100 norms.
- Concrete version 1.0 and 60.9 MB size.
- Small welcome makes overselling harder.
- UPI/bank payout methods named.

Limits of this listing

- Package not install-confirmed.

- Floor may rise after KYC without mirror updates.
- Heavier download than light club APKs.
- Single-directory narrative risk.

Listing snapshot

Compare this listing: withdrawal thresholds Â· all Rummy apps

What the Rummy Wealth numbers can tell you

The advertised ceiling on Rummy Wealth is â‚¹51. The listed withdrawal floor is â‚¹13, about 25% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listed file is 60.9 MB, 16.7 MB larger than the Rummy median of 44.3 MB.

The listing names version 1.0. If the file you receive shows a different version on first launch, treat that as a different build of Rummy Wealth.

One of the three directories we compare has a page for this name. A second page quoting the same size and the same â‚¹51 is the cross-check this listing does not have.

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.

Things to check before you install

Check level: Standard Rummy Wealth: 3 of 9, check level standard.

What we noticed in the listing

- Format: card or board game with some player decisions
- Listed on 1 of 3 reference directories we compare

Worth knowing

- Refuse SMS permission grabs.
- CDN hosts can be swapped for lookalike APKs.

Details that would help

- A second independent directory listing the same package name and size
- A withdrawal result for Rummy Wealth that you can see in the app

Based on listing data and public information. How check levels work Â· Report or correct

Before you fund Rummy Wealth

- Download only from a host you can name. Listed size for Rummy Wealth is 60.9 MB â€" a large gap is a stop sign.
- Confirm version 1.0 (or note the update) and the package name in App info. Listings say: mobile OTP; expect PAN/bank check at first payout
- Screenshot the offer (Up to â,¹51) and the Withdraw floor (â,¹13) before any deposit. Match UPI or bank holder name to registration. Try a low-stake or practice table first to see fee and rake lines.

It is what the directory row shows. Live apps sometimes raise floors without updating mirror pages - confirm on Withdraw.

Because it matches our snapshot and resists copy-paste hype to â,¹500-class banners.

28 Oct 2026.
