On the directories we compare, Yono Rummy shows up as a Rummy listing: up to â‚¹500, 34 MB, Android 5.0+. It appears on 1 of the 3 directories we read: allyonobonus.net.

The listings describe Yono Rummy as a rummy table app. Rummy is a skill-and-luck game, but the money terms of Yono Rummy still vary by operator. Inside the Yono-named group (6 listings) its ceiling ranks 2, so the name alone does not tell apps apart. A single directory listing (allyonobonus.net) means nothing about Yono Rummy has been cross-checked.

Up to â‚¹500 is one of the louder claims in Rummy (above the Rummy median of â‚¹450; rank 6 of 30). Louder headlines such as up to â‚¹500 tend to carry stricter wagering, so find the turnover multiple and expiry before chasing it.

The minimum withdrawal on the listing is â‚¹100 (UPI, Paytm and bank transfer).

Yono Rummy lists 34 MB, lighter than the 44.5 MB median for Rummy listings, and asks for Android 5.0+. The listings show version 2.3.1. Last-updated field on the Yono Rummy listing: Oct 5, 2026 (date label on allyonobonus.net).

Apps like Yono Rummy are often re-uploaded by third parties, so the first check is the host of the file, not the app name. Our download-source guide lists the steps for checking the Yono Rummy file.

Afterwards, turn off unknown-app installs for that browser and clear the Yono Rummy APK (34 MB) from Downloads.

Closest matches in our directory, including same-name siblings: Yono Slots (a headline â‚¹50 lower, 33 MB larger); Max Rummy (a headline â‚¹50 lower, a similar file size); Gold Rummy (a headline â‚¹50 lower, a similar file size). Differences in size or headline say little about payout speed for Yono Rummy, which none of the listings document.

Yono Rummy may suit readers comfortable with rummy scoring who want to read cash terms before depositing. Anyone chasing losses, anyone under 18 and anyone who cannot verify the publisher should leave Yono Rummy alone.

What the listing supports

- Registration is described as a short phone-number flow.
- Payout routes are described: UPI, Paytm and bank transfer.
- The listing states a withdrawal floor (â‚¹100), so you know what to look for.
- Listed on allyonobonus.net, so there is at least one page to compare against.

Limits of this listing

- Distributed outside the Play Store, so updates are not automatic.
- No independent check of fairness or payout speed that we could find.
- Only one directory lists it, so nothing is cross-checked.
- A high ceiling (up to â‚¹500) usually means stricter conditions; read them first.

What the Yono Rummy numbers can tell you

The advertised ceiling on Yono Rummy is â‚¹500. The listed withdrawal floor is â‚¹100, about 20% of that ceiling. Reaching the floor is not the same as being able to withdraw the headline amount.

The listed file is 34 MB, 10.3 MB smaller than the Rummy median of 44.3 MB.

The listing names version 2.3.1. If the file you receive shows a different version on first launch, treat that as a different build of Yono Rummy.

One of the three directories we compare has a page for this name. A second page quoting the same size and the same â‚¹500 is the cross-check this listing does not have.

Figures come from public listing snapshots we re-check. They are advertisements, not a payout we watched.
