Download Spin Rummy APK for Android

The rummy-first app among the Spin names, with two welcome bonuses and a lobby of 60+ games.

18+ only. Real-money games carry financial risk. Read the legal notice at the end of this page.

Most apps with "Spin" in the name are built around slot reels. Spin Rummy is the exception: the green and gold logo spells RUMMY on a silver reel, and the first tile in its lobby is rummy. Open the official page and the headline reads "Join in Spin Rummy!", followed by a promise of cash drops on every day of the year and an offer box that says "Two Welcome Bonus".

New accounts get a signup bonus of about ₹169, followed by a second bonus on the first recharge, and withdrawals start at ₹100. Below we cover what the Spin Rummy APK gives you, how the two bonuses work, how to install it safely and what to check before you add money.

The Rummy App Among the Spin Names

Our list has more than a dozen Spin-named apps, and every one of the others is a slots app first. Spin Winner , Spin Gold and Jeet Spin lead with reels, while Spin Rummy leads with rummy and mentions slots only in its page description. They are separate apps with separate accounts and wallets, so a bonus claimed in one never carries over to another.

If you came looking for a rummy table rather than a slot machine, Spin Rummy is the one to read about. For slot-first apps, see our Yono slots games list.

What You Find in the Spin Rummy Lobby

The official page advertises "60+ Games" and puts eight of them on its front tiles:

- Rummy: Indian rummy, the headline game.
- Teen Patti and Texas Poker for other card players.
- Domino and Ludo for slower, turn-based play.
- Dragon & Tiger , Andar Bahar and 7 Up Down , fast betting rounds where the cards or the dice decide everything.

The page description also mentions slots and Aviator among the games, along with a "daily mystery bonus". Rummy and poker reward practice; the quick rounds are pure chance, which our guide to hacks and winning tricks explains with the numbers.

Two Welcome Bonuses, Explained

"Two Welcome Bonus" is all the official page prints, without amounts. In practice the first part arrives after registration, a signup bonus of about ₹169 for Spin Rummy, and the second is tied to your first recharge. The exact figures can vary from player to player, so open the offer screen inside the app before you pay anything.

Neither part is cash. Each one is credited as bonus money, and only what is left after the play-through target is met can move across to the balance you are allowed to take out. The share card adds one more perk: signing up with a friend's referral code is worth 100 coins. Our bonus guide shows how wagering changes what a bonus is really worth.

Installing the Spin Rummy APK

You will not find Spin Rummy in the Play Store. The app comes as an APK file from its official "Join in Spin Rummy!" page, and installing it takes about two minutes:

- On the official page, tap the download button and wait until the file has fully saved.
- Before installing, check that the file name and the installer screen say Spin Rummy.
- If Android blocks the file, allow installs from your browser under Settings, then Apps, then Special app access (the menu names vary by phone).
- Tap Install, open the app and register with your mobile number and the OTP sent to it.
- Enter a referral code only if a friend gave you one, and only at signup.

Our APK install error fixes cover "App not installed" and parse errors. If you ever see a Spin Rummy file offered on a mod or "premium" site, skip it.

Signing Up and Logging In

Registration uses your mobile number and a one-time password, so there is nothing else to remember on day one. Keep to one account per phone and per bank account: second accounts are a common reason for frozen wallets in this app family. If the OTP does not arrive or the app logs you out, our login problems guide walks through the fixes.

Getting More From the Rummy Tables

The bonus lasts longer when the rummy is solid. Four habits help more than any table choice:

- Secure one pure sequence early. A declaration without it is invalid however good the rest of the hand looks.
- Watch the open pile. The cards opponents pick up tell you which runs and sets they are building.
- Keep middle cards over edge cards. A 6 or 7 fits more sequences than an ace or a king.
- Leave hopeless hands at the first drop. It costs far fewer points than playing a bad hand to the end.

If any of those terms are new, start with our rummy rules guide and play the lowest-stake tables first.

Spin Rummy Withdrawals

Cash outs begin at ₹100, paid to a UPI ID or bank account that carries the same name as your Spin Rummy profile. Finish any open bonus wagering first, request a small amount the first time, and note the order ID until the money arrives. A request that stays pending for more than a day is a question for support, with the order ID and a screenshot attached. Our withdrawal guide explains every status you might see.

Spin Rummy Customer Support

The official page promises "24*7 Customer Support", but it links no Telegram, WhatsApp or social channel, which is unusual for this app family. That leaves the support option inside the app: look for the service or help icon in the lobby or on your profile page. Treat any "Spin Rummy helpline number" you find online as fake; our customer care guide explains how those scams work.

Is Spin Rummy Safe?

The official page says "Secure&Legal" and claims six crore users, but those lines appear word for word on the pages of many apps in this family, so read them as marketing. Spin Rummy holds no Indian licence, it publishes no independent audit, and its page lists no support channels. Install only from the official page, keep your OTP and UPI PIN to yourself, and make sure a ₹100 withdrawal works before you deposit more. Our real or fake checklist lists the warning signs to watch for.

- The only rummy-first app among the Spin names on our list
- Two welcome bonuses, plus 100 coins with a friend's referral code
- 60+ games behind one wallet
- No support channels linked on the official page
- Easy to confuse with slot apps that share the Spin name
- Online money games are outlawed in India under the 2025 Act

Our Take on Spin Rummy

Spin Rummy suits players who want a rummy table first and the rest of a Yono lobby second. The two welcome bonuses and referral coins give new accounts a head start, but the missing support channels mean you should test a small withdrawal before trusting it with more. Our rummy apps list puts it side by side with every rummy-led app we cover, which is worth a look first.

What Players Say About Spin Rummy

See why players choose Spin Rummy through real experiences from our growing community.

I start with the game list. Spin Rummy highlights Andar Bahar and lists 60+ games in the lobby, so I would check the exact table and rules before choosing a game.

On Spin Rummy, the page lists ₹169 signup bonus. I would read the eligibility, play-through and withdrawal conditions before treating the bonus as usable balance.

For cash-out planning, Spin Rummy lists a ₹100 minimum withdrawal and support through the support options. I would confirm KYC and processing details before adding funds.
