Yono 777 is the flagship app of the Yono games family, built around 777-style slot reels and Andar Bahar / color-prediction rounds. It is aimed at players who want quick single-tap rounds rather than long card sessions, and it pays out winnings directly to UPI. The signup reward unlocks as soon as your number is verified.

777 reels at the centre

The home screen leads with classic triple-seven slots, so rounds are short and the bonus clears fast.

UPI-first cashout

Withdrawals are tied to your UPI ID, with no separate gateway step before money lands.

Tiered signup reward

The welcome credit grows as you complete first deposit and daily check-ins.
