Exiting opens a third-party page—double-check licences, domains, and age rules before moving on.

Bet-style apps tend to be judged by their welcome gesture, and the Yoswin card is no exception. Filed under Slots & BET Games, it pairs a 4.3-star rating with 488K+ installs, and the Rs.71 join credit is the figure most players will notice first. The 488K+ install base is the standout number on the card, and it suggests the site's install link draws steady traffic.

Yoswin's Rs.71 welcome credit

Yoswin puts a Rs.71 credit on the table for new registrations. The unusual amount tends to stick in memory, and it sits behind the standard 18+ gate with the bonus rules laid out on the site's terms page. The install link opens on the developer's own website rather than a direct file, so players complete the download from that page itself with no sideloading required.

Cashing out on Yoswin

On the way out, Yoswin asks for a ₹100 minimum withdrawal, a standard bar for an app of this kind. Payments are listed as UPI and wallet, and no card or bank channel appears anywhere on the profile. The 52 MB build, the v4.1.7 version, and the Nov 2025 refresh stamp round out a listing that is heavy on installs and light on friction for new players. The 18+ gate is stated plainly and applies at sign-up. Processing timelines are not published on the profile itself, so first-timers who care about speed should check the site's own pages before registering.

The Yoswin card in this directory shows Rs.71 as its join offer. The figure sits in the bonus row, so it reads as the welcome amount offered when a new account signs up. It is listed separately from the ₹100 minimum withdrawal on the same card, which governs the cash-out side.

The Yoswin entry records ₹100 as its minimum withdrawal. That is the payout figure on the card, meaning a balance would need to stand at ₹100 or more before a cash-out, per the listing. The page prints no other withdrawal conditions.

The download link on the Yoswin entry opens the app's own site rather than a direct APK file. Even so, the card records the size (52 MB) and version (v4.1.7) with a Nov 2025 refresh date. Android users follow the listing's link and install through the destination it opens, and the age limit shown is 18+.

The Yoswin card names UPI and wallet in its payment row. The listing writes the second method as wallet without naming a specific provider, and nothing else is printed. Anyone planning to deposit should confirm which wallet actually works at the operator's destination.

The Yoswin page shows 488K+ installs and a 4.3 rating. Both figures are printed as-is on the card, and the directory does not expand on how the rating was collected or the period the install count covers. They are best read as the listing's own numbers.
